Mount Royal

EUROPEAN PLUMS and PRUNES

MT. ROYAL *The Hardest European Plum*

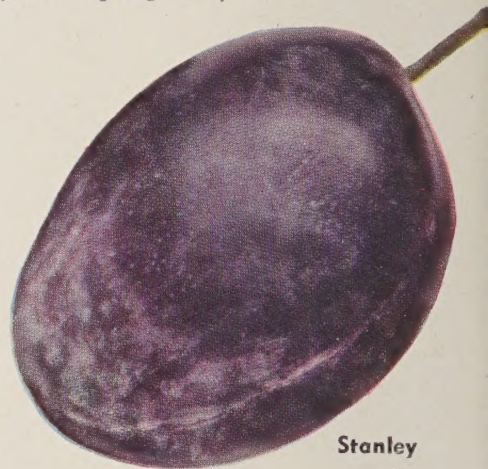

Remember those delicious, juicy European Blue Plums you always liked but never could grow? Now you can grow them in your own back yard on medium sized trees. They will be even tastier, too—tree ripened in your own yard. The fruit is medium in size, attractive deep blue or purple with a medium bloom; **flesh is firm, juicy and FREESTONE.** The quality is excellent for all purposes. Be sure to plant some Mt. Royal this spring and you'll soon be enjoying your own European plums. Mt. Royal appears to be self-fertile so no pollinizer is needed.

STANLEY PRUNE

No longer do you need to go to the grocer for Italian Prunes grown in California. **Stanley** is just as big—is just as good—but is **hardy.** Developed at the New York Fruit Station, Stanley has withstood without injury 31° below zero. The large, dark blue fruits have rich yellow flesh that is firm and **very sweet.** Excellent for eating, canning or freezing.

Stanley

3-4 ft., 7/16" cal.	1.45	1.40	1.35

DIETZ PRUNE

Extremely Hardy

Dietz is not large—but it is **extra sweet, freestone, and very hardy.** The tree is very shapely and bears a heavy crop of fruit that is sweet enough to eat fresh like Bing Cherries. Very hardy and dependable.

Dietz

BLUEBELL PRUNE

This new prune developed by the Missouri Fruit Experiment Station is a cross between Stanley and President, and is a little larger even than Stanley. **The flesh is yellow, sweet, juicy and of excellent flavor.** Until its range of hardiness is determined we recommend it only for Missouri, Iowa and similar locations. **Prices:** 4-5 ft., \$1.75 each. 3-4 ft., \$1.50 each. 2-3 ft., \$1.25 each, all prepaid.

Red Glow

HYBRID JUMBO PLUMS

Grow your own plums and enjoy them as nature intended—pick fully ripe with all their flavorful goodness—fresh from the tree. Plum trees are not large and can be used in the landscape planting. Mt. Royal and Dietz are especially well adapted for this. Plant some plums this spring. Those marked with 3 stars (★★★) are introductions of the Minnesota Fruit Breeding Farm.

REDCOAT ★★★

You'll want seconds on dessert when you try a dish of these luscious plums next winter. **Perfectly freestone**, Redcoat is one of our best plums for canning. Has medium sized, bright crimson fruit of excellent quality. Trees are vigorous, hardy and highly productive. Bears young and heavily.

SUPERIOR ★★★

A huge, delicious, red plum as large as any California plum. Has a rich, sweet flavor unexcelled for eating and peels like a peach. Ripens in August and bears heavily every year. Not as hardy as Pipestone but can be grown anywhere south of Central Minnesota.

RED GLOW ★★★

Just named last year, this large, handsome plum is very hardy and of good quality. Fruit is dark bronze-red with orange flesh. Quality is good. Tree is productive and hardy—can be grown anywhere.

PIPESTONE ★★★

For a taste treat you'll never forget, just try a huge juicy Pipestone Plum. Very large, early, highly productive, and exceptionally flavorful. This plum ripens early in August and bears heavily every year. Good for canning, but especially valued for eating fresh—you'll say: "It's the best yet." Don't lose another year—plant Pipestone this spring.

POLLINIZERS

Be sure to include some Plum Pollinizers with every group of plums, except for Mt. Royal and the Prunes, to make sure you will get fruit. If you have some plums that are not bearing well, add 1 Kaga or South Dakota to every 9 or 10 trees.

KAGA

Fine apricot-type flavor—you'll love Kaga for jam, though it's not much for eating. Very good pollinizer.

SOUTH DAKOTA

Not a large plum, nevertheless South Dakota is one of the best pollinizers for the Jumbo Hybrid plums. Quite sweet and better for eating than Kaga, but not as good for jam.

New ★ ★ ★

KOREAN CHERRIES

Here's the ideal combination you've been looking for—an attractive **ornamental bush** that bears loads of **delicious cherries** for pie, sauce and jelly!

Korean Bush Cherries grow only 3 to 4 feet tall. They make excellent foundation plantings with their delicate green leaves (which turn bronze in the fall), their mass of white bloom early in spring and brilliant red fruit in August.

Beautiful and Useful, Too

You can plant Korean Cherries near the house, in the shrub border, the screen planting, or in the garden. Resembling flowering almonds, they add a touch of beauty to any landscape planting. And they provide **fresh fruit** grown inside the foliage where birds can't reach.

You would hardly suspect that these little bushes bear loads of delicious full-sized cherries the second year. The fruit is sweeter than regular pie cherries. The pies they make will please the heart (and stomach) of any man or boy!

The wild form of this cherry is a tough, hardy native of Korea. Horticulturists at the Minnesota State Fruit Breeding farm improved it by years of selection and testing. Our stocks are propagated from the state's best selections.

Be sure to plant at least two different varieties to insure cross pollination.

NANKING CHERRIES

★★★

Fruitful—Ornamental

Beautiful bloom and foliage are combined with loads of attractive and delicious fruit in the "**dual purpose**" Nanking Cherry. Only 5 to 6 ft. tall, the shapely bushes fit naturally into any landscape planting—or they may be grown in your orchard or garden. Absolutely hardy—can be grown anywhere.

Improved Hardy Selections

The two varieties we grow are improved selections made by the Minnesota Fruit Breeding Farm. They are **grafted varieties** and should not be confused with seedlings. Both varieties are self-fertile and may be planted singly. Enrich your landscape by planting this practical "**dual-purpose**"—fruitful and ornamental—Cherry.

Cherry-Plums

are

- Easy to Grow
- Easy to Eat
- Easy to Sell

Sapalta

Andrews CHERRY-PLUM HYBRIDS

GIANT RED-FLESHED CHERRY-PLUM (Sapa)

A popular fine-flavored cherry-plum that is **unexcelled for canning**, for eating fresh and in sauce and pies. Fruit finds a ready market. **Fruit is large** with a small pit, a thin purple-red skin and **wine-red flesh**.

Introduced a number of years ago by Prof. N. E. Hansen, Sapa forms fruit buds the first year and bears the second. It is a good annual bearer. Sapa is extremely hardy and easy to grow. Sets fruit regularly and heavily if you prune severely every year. Cut out the older growth and encourage new shoots. Include some pollinizers with order.

POLLINIZERS

Because Cherry-Plum Hybrids will not bear if grown alone, you will want to plant some pollinizers, too. You will find **Compass** and the **Hansen's Bush Cherry** to be excellent pollinizers. Be sure to include one or the other in every order.

COMPASS

Compass has proven to be an effective pollinizer for Sapa and Sapalta. Plant one in every group, or in larger plantings one to every 8 or 10 cherries. The tree is **extremely hardy** and thrives in nearly any location. Fruit is valued for canning, jam and jelly. Will bear the second year.

HANSEN'S BUSH CHERRY

Hansen's Bush Cherries are also recommended as pollinizers for Sapa and Sapalta. They are easy to grow, and while the quality does not compare with the Korean Bush Cherry, it does make good preserves. They bear early, heavily and annually.

PRICES OF HANSEN'S BUSH CHERRY All Prepaid

Try This Recipe for Jam

Here's a jam recipe to tempt grown men and small boys alike. Cover Cherry Plums with water, add 1½ teaspoons soda, boil until skins break, drain through colander, remove pits. Add sugar pound for pound. To a moderate-sized kettleful, add 1 tablespoon vinegar, boil until thick. Put in jars and seal—or serve and stand ready to make more.

SAPALTA

A New, Sweet Cherry-Plum Hybrid

From our neighbors to the North has come another achievement in plant breeding. Sapalta is a **new, extremely hardy** Cherry-Plum Hybrid developed at the Dominion Experimental Station, Brooks, Alberta, Canada. It is a seedling of Sapa, but seems to be hardier and even a more dependable bearer. We are proud to be among the first to offer this variety.

Prof. W. R. Leslie, Superintendent of the Experimental Station at Morden, Manitoba, Canada, says of Sapalta: "Closely resembling Sapa in bush and fruit characters, but **seems sweeter** and less clingstone. It may be more dependable. The fruit is of **excellent quality**."

You will enjoy this new addition to your garden or orchard. Be sure to include a pollinizer cherry in your order.

Northern Grown

Peaches

are most vigorous

Peaches are an extra special treat when picked ripe from your own trees. For jam and canning they are favorites—and a nice juicy peach pie comes very close to apple and cherry in appeal. Not recommended for Minnesota.

HALE-HAVEN

This new, freestone peach produces loads of delicious, high quality fruit when you can't wait for that first peach. About 15 days earlier than Elberta. The fruit is firm, yet juicy and colors to an attractive orange with a deep red blush.

MARQUETTE

Hardier than most and well suited to the northern peach growing sections. A nice quality peach, mouth-watering when picked fully ripe from your own trees.

ELBERTA

This standard market peach fills millions of fruit jars and freezer packages every year. Its tender flesh and firm skin make it an excellent shipper. Ripens first week in September; flesh turns to deep, luscious red near the pit. Freestone.

POLLY

Hardiest peach of all—will stand 15° below zero. Large, freestone fruit is handsomely cheeked; has white, firm, juicy flesh; a rich luscious flavor. Bears young and produces abundantly. Best variety for home use.

POLLY COLLECTION

- 1 Polly. 4-5 ft.
- 1 Marquette. 4-5 ft.

RA-PID-GRO - A Specially Prepared Liquid Plant Food

RA-PID-GRO contains both Vitamin B1 and B2, but, separately or combined, these vitamins do not supply all the nourishment required by plant life. While vitamins have a definite value in the promotion of root growth, it is necessary that other food elements which nature has provided for the development and growth of plant life be included. Therefore, to the vitamins in RA-PID-GRO are added eleven other needed food elements. RA-PID-GRO has been called "The Miracle Plant Food" because of the phenomenal results obtained by this almost perfect combination.

RA-PID-GRO contains no inert materials (sand, cocoanut shells or brick dust). Every bit is 100% plant food and when applied in solution it is immediately absorbed by the plant roots. No waiting for weeks to obtain growth or color. RA-PID-GRO gets results in an amazingly short time.

The principle of this food is to feed the plant itself, not the earth. A healthy plant will itself feed the earth, and healthy

plants are produced by RA-PID-GRO which is composed only of the purest chemicals, vitamins and hormones.

Each pound of RA-PID-GRO makes 176 pounds of liquid fertilizer or plant food when water is added. RA-PID-GRO insures success, for it speeds up production and assures an abundant crop.

All plant food must be in liquid form before it is available to the plants. When RA-PID-GRO is applied according to directions a rainfall is not necessary to make the food available to the plant.

Complete directions sent with each order.

ORIOLE ★★★ A New Harvest Apple

(Formerly Minnesota No. 714.)

A new, large, extra early apple of very high quality that ripens in August—just when you would give most anything for a fresh apple pie. However, Oriole isn't just a pie apple. It is of top quality for eating with a crispness and juiciness not usually found in early apples. Its large size, high quality and attractive coloring—an orange-red over a yellow background—will make Oriole one of your favorite apples.

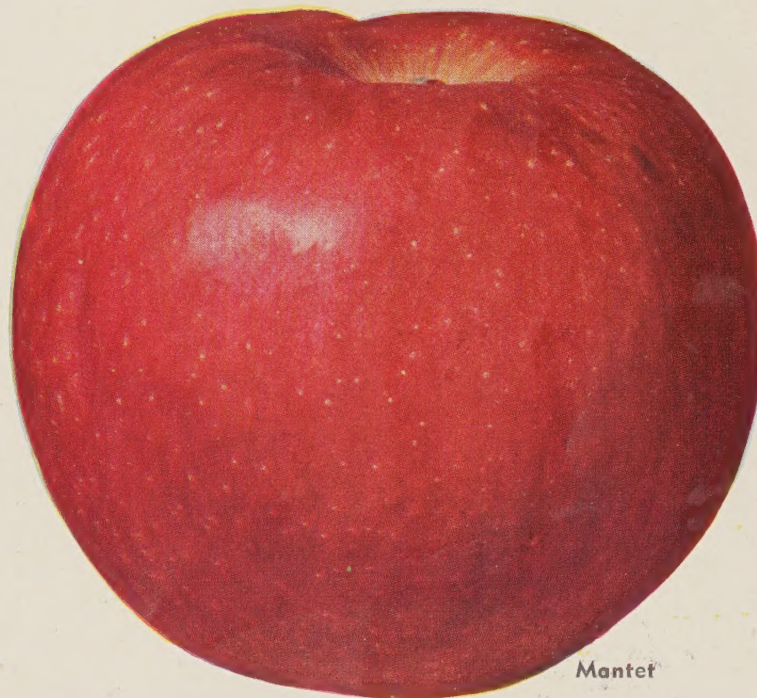

Oriole

MANTET

An All-Red, High-Quality, Early Apple

Another new and promising summer apple, Mantet was developed at the Dominion Experimental Station, Morden, Manitoba, Canada. Mantet has exceptional quality, being equalled only by Oriole during that season. While not as large as Oriole, Mantet is a solid brilliant red, making it especially desirable for selling. Will be a good seller with a quality that will make repeat sales.

Mantet

MINNESOTA No. 978 ★★★

Minnesota No. 978 is one of those apples that just can't miss. It is just a little later than Wealthy, but from there on it has Wealthy beat on every count. Color is an attractive all-over bright red. The Apple does not drop easily. It is an annual bearer, which means you get a good crop every year instead of more than you can use one year and none the next. A sure winner. Order early and be sure to get yours this spring.

Fireside

FIRESIDE ★ ★ ★ A New "Super Delicious"

For those who like a sweet apple, but want more crispness and character than Delicious has, we recommend Fireside. Hardy enough to be grown far north of Delicious districts, yet its quality will make it popular even where Delicious is grown. The tree is perfectly hardy, although the season probably isn't long enough in Northern Minnesota. The tree bears every year. The fruit keeps all winter, and is tops in quality as an eating apple.

Prairie Spy

PRAIRIE SPY ★ ★ ★

Late Keeper—Exceptional Quality

Prairie Spy is for discriminating people—those who are not satisfied with common apples. Its unusual flavor sets it apart from all others. Excellent for eating, and not being sweet like Fireside, it is also prized for cooking. This dual-purpose feature will make it one of your favorites—and its individual, almost nutlike flavor will make your friends frequent visitors at picking time. Will keep all winter.

VICTORY ★ ★ ★ An Improved McIntosh

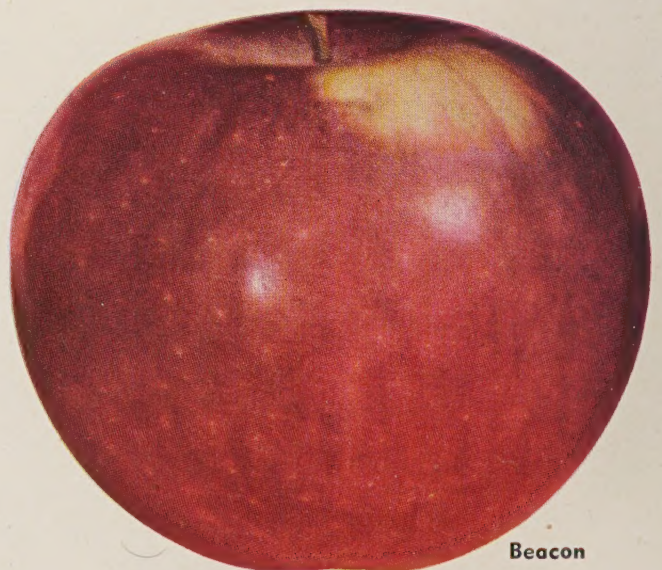

If you like McIntosh, we believe you will like Victory even more. A seedling of McIntosh, it seems to have all the good points of its parent without many of its weaknesses. Victory has better color, clings to the tree better, is just as good for eating and much superior for cooking. Wonderful for baking, pies, apple sauce or uncooked in salads.

BEACON ★ ★ ★ Early—All-Red—Hardy

Beacon established itself last year by selling for twice the price of its seasonal rival, Duchess. Beacon is very hardy, productive and is not as perishable. Its solid, dark red color gives it eye appeal unequalled by any other apple at that season. Its quality being much better than Duchess means repeat sales. For home or market, Beacon is King in its season.

HARALSON ★ ★ ★ Bears Early and Heavily

Haralson is a large, red winter apple and while it is not as good quality for eating as Prairie Spy and Fireside, there is not an apple in the land that is better for America's most popular dessert—Apple Pie. It has perfect cooking quality and is a heavy producer. The trees are strongly branched and carry heavy loads. Prof. Alderman says of Haralson: "Its size, shape and color are just right for an ideal commercial apple . . . Fruit keeps through the winter."

WEALTHY An All-Time Favorite

An old stand-by that is still a very popular apple. Bright red over most of its surface, it has good size with a juicy, sprightly flavor. Ripens in September but can be used earlier. Bears young and heavily and fruit will keep until January.

CORTLAND

A relatively new apple, yet Cortland has risen to the third most popular commercial apple in New York State, and is continuing to gain. The tree is medium sized, productive, and an annual and early bearer. The apples are large, well colored and have a crisp white flesh. Above average quality for eating and cooking. Keeps well into winter in common storage.

NORTHWESTERN GREENING

Very large green fruit that turns to an attractive pale yellow as it matures. Good for cooking—especially pies. Long winter keeper. A good commercial variety for Southeastern Minnesota and the middle states. This apple is in good demand from December to March.

Double
Red
Delicious

DOUBLE RED DELICIOUS

America's best known and most popular apple. Beautiful red, sweet winter eating apple. High quality, although without the richness and character of Fireside. Recommended for Southeastern Minnesota and warmer regions.

Chestnut
Crab

MODERN CRAB APPLES

CHESTNUT ★★★

The excellent eating quality together with its large size almost classes Chestnut as a small apple. Especially good in school lunches. Beautiful bronze-red, crisp and juicy. Ripens early September, will keep into November.

PIOTOSH

A new introduction from Canada. The Morden, Manitoba, Experiment Station says: "Piotosh is a good preserver, good for jelly and fair as dessert. Medium large, bright red, very attractive." Extremely hardy.

DOLGO

Strikingly beautiful, the fruit is bright fiery red and borne in great profusion. It jells perfectly—is also good for pickles and sauce. Dolgo makes a beautiful ornamental tree as well. Very hardy.

Piotosh Crab

WHITNEY

You'll like these fresh off the tree. Large, sweet, juicy fruit, colored yellow with lively red stripes. Delicious for apple butter, sauce and pickles. Ripens early, bears young and is a heavy cropper.

CRAB COLLECTION

- 1 Chestnut. 5-6 ft.
- 1 Piotosh. 5-6 ft.

Minnetonka
Beauty

Redwell

Dolgo Crab

REDWELL ★ ★ ★ An Annual Bearer

Ideal for home or commercial orchards. They bear annually, are of high quality and are very hardy. Redwell has a solid red color and uniform size. They cling well to the tree and do not cluster nor overload. Oldest trees under test produced 17 consecutive crops.

MIN-JON ★ ★ ★ A Minnesota Jonathan

Similar to Jonathan in appearance, quality and usefulness, but ripens earlier and is much hardier. This spells greater profit for the commercial grower and added savings and satisfaction for the home grower. Min-Jon thrives and produces even in the cold of Northern Minnesota. Fruit is a dark brilliant red, borne heavily and distributed well over the tree. Good eating, good cooking, and sells readily at top prices.

MINNETONKA BEAUTY (Plant Patent No. 474)

Minnetonka Beauty is a late winter apple, ripening between September 20th and 30th. It has exceptionally high dessert quality, is attractively colored red over yellow and keeps well into spring. The tree is very hardy and is an annual bearer, the original tree having carried 13 consecutive crops.

MINN. No. 790 ★ ★ ★

Large, firm, dark red apple with the proper sugar content that holds its shape while being baked. Tests by the Hotel and Restaurant Association have proven it superior to the older, accepted baking varieties. Good also for pies and sauce. A good annual bearer for home or commercial orchards that keeps better than many fall varieties.

RED VAN BUREN

Until recently thought to be a sport of Duchess. All the good qualities of Duchess, but larger and better color. Solid red, very early and hardy.

HIBERNAL

An extremely hardy tree with perfect branching for topworking. Fruit is poor quality. Not recommended except for topworking. Write for prices on larger quantities.

JONATHAN

A very popular, all-around apple, dark red—high quality—a good keeper. Recommended only for Southeastern Minnesota and similar sections.

YELLOW DELICIOUS

A large, juicy, fine flavored, golden treat excellent for eating. Not recommended for Minnesota.

ANOKA

Good when you want apples quickly—often bears second year. Quality poor—would recommend Beacon or VanBuren. Very hardy.

Minnesota No. 790

Red
Van Buren

78 YEARS of CONTINUOUS SERVICE

Seventy-eight years ago Andrews Nursery Company was founded upon the belief that there was a market for well-graded, **Northern Grown Nursery Stock**—stock that was honestly represented and true to name. We have always striven to provide for our friends and customers only the best grades of the newest and best varieties of fruits, ornamental shrubs and perennials.

Experience—Severe Climate—Good Soil

Through heat and cold—from 40 below to 100 above—through good years and bad, our **78 years' experience** and 1200 acres of fertile Minnesota soil have been combined to produce planting stock you may depend upon to give you the good results that you desire. We wish to thank the thousands of planters who have so faithfully patronized us over the years—and if you are not yet one of them, to invite you to see for yourself how much Northern Grown nursery stock can mean to you and your gardening success.

We hope that we may have the opportunity of supplying you with your planting requirements this spring and in that way help you to make your home more fruitful and beautiful.

Most cordially yours,

ANDREWS NURSERY CO.

Here's "Proof Positive"

of why some orchard trees yield better and are strong and vigorous while others are crippled failures. This is picture evidence to prove that **Andrews Northern Rooted** trees are far superior to **common rooted** trees.

The pictures below show two root stocks from our 160-acre orchard where the test was made. We set 50 McIntosh apples propagated on our own **hardy northern root stocks** alternately with 50 trees propagated on common roots. Both lots of trees were the same size when planted and both received the same care through the 17 years until the pictures were taken.

After 17 years our hardy **Northern** rooted trees were at least three times as large as those on **common roots**. Many of the **common** rooted trees had died, but few of the **Northern**. The **common** rooted weaklings had borne little fruit and were a financial loss, while the **Northern** rooted trees were strong and sturdy and had borne regular and profitable crops.

This 17-year-old McIntosh was grafted on common root stocks. These roots died completely, leaving the tree to exist on the few "scion roots" above the graft. Result: weak or stunted growth—little or no fruit.

This 17-year-old McIntosh was grafted on our Special Northern stocks. The hardy, sturdy root anchors this tree securely in the ground. Result: vigorous growth—heavy crops of fruit.

We Pay the Postage!

Yes, we pay the postage. No need for you to wonder how much the shipping charges are going to be. **We pay the postage—or express charges—on everything** in this year's catalog except for a very few items such as shade and ornamental trees, evergreens and the large quantities of raspberries. All the apples, plums, cherries, strawberries, bush fruits, roses, shrubs and perennials come prepaid for shipping costs. If you order any of the not prepaid items they are sent express collect for the actual shipping charges. When an order includes both prepaid and not prepaid items we will send the entire order express collect, provided it all can be shipped together, but will include in your order some selected items that will be of greater value than the amount of the postage or express charges required for the prepaid items.

Our Guarantee to You

We guarantee that all our nursery stock will reach the purchaser alive and in good growing condition; and will replace, free of charge, any that does not. In the event of damage, we will appreciate your sending us your express or freight receipt with statement from the agent showing loss or damage, as this will help us in filing a claim with the transportation company.

Any tree or plant that dies the first growing season, we will replace at a cost of one-half the regular catalog price, customer to make report and have his order for replacement in our hands before October 10th following date of purchase.

We guarantee to all our customers stock that is true-to-name and absolutely as represented. Any of our stock proven not to be, will be replaced free of charge or the purchase price refunded. It is mutually agreed by the purchaser and ourselves that we are not to be held liable for any damage other than herein named.

Bonus Plants

for EARLY ORDERS

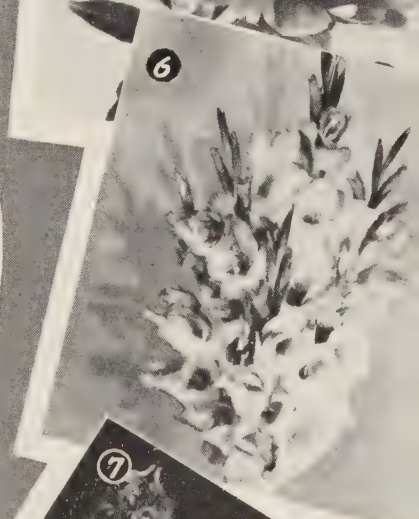

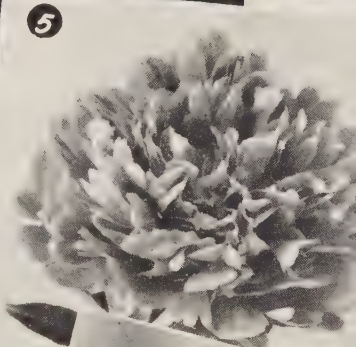

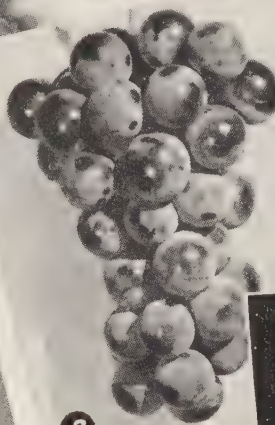

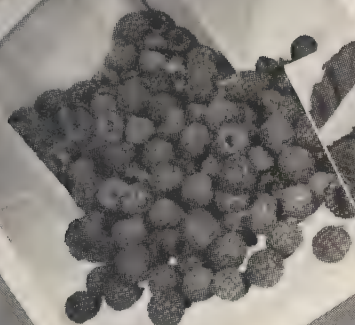

Because it helps us to give you better service we would like to have as many early orders as possible, thus helping to ease the "planting time rush". Early orders are easier for us to handle, so we are willing to pass this saving along to you in the form of **Bonus Plants, at no extra cost to you.** If you send us your order for nursery stock **BEFORE MARCH 15**, you may select from the premium list below, one premium for each \$5.00 of your order. For example: If your order totals \$5.00, you may select one premium; if it totals \$10.00, you may select two, and so on.

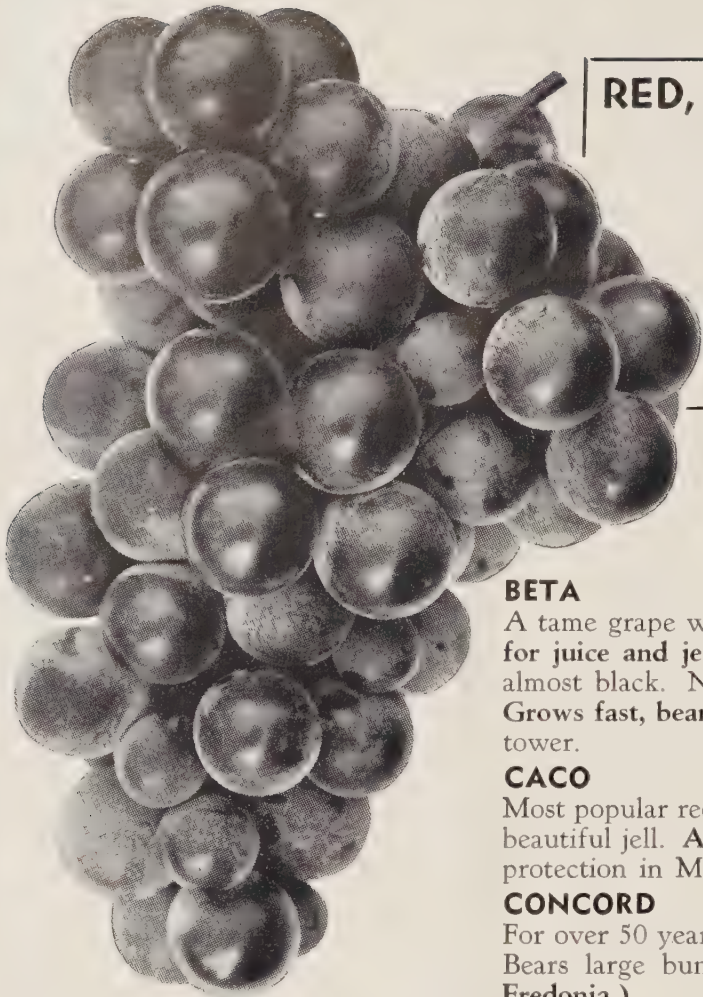

- | | |
|---|--------------------------------|
| ① 3 Sunrise Raspberries, 1 yr. std. | ⑤ 1 Peony (our choice) |
| ② 3 Indian Summer Raspberries, 1 yr. std. | ⑥ 5 Glad Bulbs (our choice) |
| ③ 1 Fredonia Grape | ⑦ 2 Delphinium |
| ④ 1 Field Grown Mum (our choice) | ⑧ 1 Iris |
| | ⑨ 1 Baby White Birch 12-18 in. |

When you get two or more Free Premiums, they may be alike or different. Please write on your order the Free Premiums you select, otherwise none will be sent. In case we run short of some items, we reserve the right to change premiums to others of equal value.

Extra!

On orders for Perennials and Mums selected from those listed on pages 42 to and including page 47, we will add to your order a **premium** of one Selected Mum plant on every order totaling \$3.50. On orders of \$5.00, two Mums will be added at no charge and on orders of \$7.50 or more, three Mums will be added. This offer will continue all spring.

RED, WHITE and BLUE Grape Collection

Three of the best varieties—all high quality varieties. 2-yr., heavy, select vines.

- 1 Caco. Red.
- 1 Portland. White.
- 1 Fredonia. Blue.

ALL 3 FOR ONLY **98c**
Prepaid

Quality GRAPES

A dollar or two invested in Andrews grape vines will give you many dollars worth of fruit—plus **years** of satisfaction. Grapes are easy to grow. They bear every year, are fine for eating fresh, or for juice, jams and jellies. Plant a selection this spring.

BETA

A tame grape with the extra flavor and hardness of wild grapes. **Excellent for juice and jelly.** Needs no protection—even in severe winters. Fruit is almost black. Nearly as large as Concord, but yields better farther north. **Grows fast, bears early.** Fine for fences, arbors, over a building or windmill tower.

CACO

Most popular red grape. Extra large; rich and sweet; delicious flavor. Makes beautiful jell. **A rapid grower; early and heavy bearer.** Vines require winter protection in Minnesota.

CONCORD

For over 50 years **Concord** has been the most popular grape in this country. Bears large bunches of sweet, juicy, blue-black grapes every year. (See **Fredonia**.)

FREDONIA

An early black grape which **ripens 3 weeks earlier than Concord.** Fredonia is rapidly replacing Concord in many districts. Fruit is equal to or better than Concord. Vine is just as productive as Concord, but both need winter protection in Minnesota.

BLUE JAY ★ ★ ★

Large compact clusters of berries the size of Concord. Dull black, covered with bluish bloom. Rather acid when first colored, but in 10 days on the vine they become mild and pleasing. Especially good for making juice and jelly. Their imperfect flowers require their being planted with other grapes. Hardy.

PORTLAND

A large, **white grape** of good quality, from New York. Earlier than Niagara and destined to replace that variety. Vine requires winter protection in Minnesota.

VAN BUREN

Newest and finest of the **blue grapes**, and earliest to ripen. Bears large, compact bunches of handsome, dark blue berries that are superb for jam, jelly and wine. Vine requires winter protection in Minnesota.

Patten

Delicious Tree-Ripened PEARS can be yours

Many folks still do not believe that pears can be grown in the North. However, we do have **hardy pears** that you can grow easily. Pears will do well in sod in your own yard. They do not take much room and are quite ornamental. Be sure to plant two kinds for cross pollinating and you will have loads of fruit.

PATTEN

A juicy, **sweet and flavorful pear** recommended for southern Minnesota and other regions with a similar or milder climate.

Prof. H. L. Lantz, of Iowa State College says: "This Patten pear as grown at Charles City, Iowa, has never blighted and has been productive and vigorous. The fruit is of good size, resembles Bartlett in form, very tender, juicy and good quality; season is September."

BANTAM ★ ★ ★

A Minnesota developed variety with fruit the size of Seckel, **excellent for eating or canning**. Fruit makes up in quality what it lacks in size. Free of blight, the tree is a heavy annual cropper. Hardy as a Duchess apple, it can be raised wherever Duchess can be grown.

Parker

PARKER ★ ★ ★

Parker is the most dependable pear for Southern Minnesota and similar regions. We suggest trying it in favorable locations farther north too. **Prof. Alderman** describes Parker as follows: "The fruit is medium to large, with smooth medium thick skin; color is clear medium yellow, usually with blush; flesh is tender, medium fine grained, juicy, sweet and of **very good quality**." Fruit ripens in early September.

BARTLETT

The leading commercial variety and one of the finest and most popular for dessert and canning. The fruit is large, rich, golden yellow with pink blush, juicy and sweet, a good keeper and shipper. The tree is vigorous and bears early. It is hardy in Iowa as well as regions east of the south central part of Wisconsin.

YOU, TOO, CAN GROW LUSCIOUS PEARS IN YOUR OWN BACK YARD

Mr. J. R. King of Faribault (picture at right) is very fond of his Minnesota pears. He writes under date of August 29, 1949.

Gentlemen:

When I came to Minnesota to live a few years ago I didn't think pears could be raised successfully north of Missouri. Now I have pears in my own back yard and are they delicious.

The little trees bore a few last year and this year quite a little crop. Before long I should have more pears than we can use. This year we can can a few quarts. They sure are sweet and tasty. I thought you might like to know how well pleased I am.

Yours sincerely,

J. R. KING.

[15]

RED LAKE CURRANT

Makes Clear, Bright Red Jelly

Imagine having your fruit cellar shelves well stocked with clear, sparkling, bright red currant jelly. The youngsters will love it! Currant mixed with raspberry makes a delicious jelly, too, and an outstanding dinner treat. Six bushes in your garden will give your family all the currant jelly they want. The large, scarlet-red berries grow in **long clusters**, well filled to the tip. Long stems make them **easy to pick**. They ripen in early midseason, but hold over a long period to use or sell as desired.

Introduced from Minnesota, Red Lake is now the most popular variety for home and market because of its high yield and vigorous growth. It is easy to grow, easy to pick, easy to sell.

Dr. J. Harold Clark, formerly of the New Jersey Fruit Experiment Station, says: "Red Lake has continued to yield fruit of large size borne on well-filled clusters. It has been superior in this respect to Fay, Wilder, Perfection and London Market."

2-yr., heavy select plants: Each 60c; 3 for \$1.65; 6 for \$3.00; 12 for \$5.40; 25 for \$10.00, prepaid. Write for special quotations on larger quantities.

CASCADE CURRANTS ★★★

Jelly Special

2 - RED LAKE
2 - PIXWELL

all 2 year heavy plants

ONLY **\$2.65** POSTPAID
(Regular Value \$3.00)

Cascade has extra big berries, and is a splendid companion for Red Lake, ripening a week earlier. The bush stands a little more upright and is a splendid plant. Cascade is just as hardy as Red Lake, just as productive, has a larger berry but not as long a bunch.

Prof. Alderman says of Cascade: "A very large-fruited currant with large clusters and very productive."

2-yr., heavy select plants: Each 70c; 3 for \$1.95; 6 for \$3.55; 12 for \$6.65, prepaid.

Red Lake (actual size)

PIXWELL GOOSEBERRY

You'll want to try the appetizing pies and preserves made from this new, almost thornless gooseberry from North Dakota. It "picks well" because the berries hang on slender stems an inch below the branches. Its few thorns are rather soft, which makes picking a quick and easy operation. Pixwell carries heavy loads of large, fine quality berries. They turn from an attractive light green color to pink when they ripen. Bears very young. The Dominion Experiment Station at Morden, Manitoba, Canada, says: "Pixwell continues the leading gooseberry for Manitoba conditions. It is exceedingly vigorous and always bears heavy crops."

Colorful foliage makes Pixwell a most attractive ornamental bush. Plant some of these hardy, dependable bushes this year, in both the garden and shrub border.

2-yr., heavy select plants: Each 95c; 3 for \$2.50; 6 for \$4.75; 10 for \$7.65, prepaid.

Sensational New PIE CHERRY MINNESOTA No. 58

*Surpasses Montmorency in
Color, Quality and Flavor*

We believe that the **Minnesota No. 58 Pie Cherry** will prove to be the most important development of the Minnesota Fruit Breeding Farm since their introduction of the Latham raspberry.

The fruit is large, of excellent quality, juicy and freestone when fully matured.

The comparatively small size of the tree is a distinct point of advantage. The original tree growing at the Minnesota Fruit Breeding Farm and shown below, is 11 years old and is only about 5 feet tall. When propagated upon Mahaleb or Mazzard understocks, as all pie cherries are, the tree tends to be larger, but indications are that it will be a **much smaller tree than Montmorency**. Considerably **hardier**, Minnesota No. 58 is also much more resistant to leaf spot than is Montmorency.

The tree is very shapely and with its glistening dark green leaves it is ornamental as well as fruitful. Certain to be very widely planted within a few years, we urge you to get a start now by planting some this spring. When you have tasted the pie made from Minnesota No. 58 we know you'll want to plant more.

Prof. T. S. Weir, Superintendent of the Minnesota Fruit Breeding Farm, standing beside the eleven-year-old original tree of Minnesota No. 58 Cherry.

Minnesota No. 58

BEST CHERRY FOR PIE

The superb quality of this fine new cherry is aptly described by Mrs. Walter Montfort who has spent most of her life in the heart of the fruit belt in Michigan.

She writes as follows:

Gentlemen:

Having lived most of my life at Benton Harbor, Michigan, and having been practically raised on cherry pie, I was most interested in getting some of the New Minnesota No. 58 pie cherries last summer. I will admit that I was skeptical, and consequently was utterly amazed at the wonderful pie this cherry makes. I made the pie just the same as I did when using Montmorency Cherries except that I used no coloring nor any almond extract to bring out the flavor. When I cut the pie the color was magnificent, being a deep rich cherry-red; and the flavor was the finest I have ever tasted in a cherry pie. **In color and flavor Minnesota No. 58 beats any Montmorency pie I have ever made.**

Yours truly,
MRS. WALTER MONTFORT.

Official Description of Minnesota No. 58

Date planted	1937.
First full crop	1942, and every year since except 1948 when it carried only 50% of a crop.
Ripening date	Usually July 5-10, but will hold on tree in good condition for 2 weeks.
Fruit size	1 3/10" wide by 3/4" deep.
Stem	1 1/8" long, slender.
Color	Bright red when first ripe, turning to dark glistening mahogany-red.
Skin texture	Medium tender.
Flesh color	Red-yellow near skin turning to dark red.
Flesh texture	Tender, meaty.
Juiciness	Juicy.
Flavor	Pleasantly acid.
Quality	Very good.
Pit size	Small.
Pit adherence	When first ripe, nearly free; later, freestone.

MONTMORENCY

The most widely planted pie cherry. Large, beautiful cherries surpassed only by Minnesota No. 58 in quality and flavor. Hardy south and east of Minnesota where they bear very consistently.

PRICES—All Prepaid

	1-4 Each	5-9 Each	10-24 Each
4-5 ft., 11/16" cal.	\$1.95	\$1.85	\$1.75
3-4 ft., 9/16" cal.	1.70	1.62	1.54

GARDEN ROOTS *from Andrews*

You'll enjoy that first delicious taste of juicy, red rhubarb early in the spring. Keep cutting and using it, and it will be just as tender and flavorful throughout the season. For a treat, try mixing with it a few raspberries or strawberries.

Rhubarb is the most under-rated, easy-to-grow and easy-to-prepare garden product ever known. The new red varieties make sauce or pies that are a beautiful cherry-red. The flavor is pleasantly tart and tantalizingly sweet. The red skin is so smooth, tender and sweet that peeling is unnecessary. Rhubarb is fine for canning and freezing, too.

Valentine

The New VALENTINE

Mildest and Sweetest of All

Introduced from Canada, **Valentine** is the newest and best of the red rhubarbs. It is **sweetest** of all, requiring the least sugar. Makes delicious pies and a smooth, tender, bright red sauce. Combines rich flavor, **high quality** and vigorous growth. Excellent for home use and freezing.

A rare taste treat, Valentine was among 25 varieties tested at the Dominion Experiment Station, Morden, Manitoba, Canada. Six persons tasted cooked rhubarbs identified only by numbers. The Morden Station reports: "**Valentine rated highest.** Color was an even bright red; texture smooth and tender. Flavor was pleasing with a slightly tart after-taste. All testers accorded Valentine the highest standard."

Prices: 2 for \$1.80; 6 for \$4.80; 10 for \$7.00; each \$1.00, all prepaid.

MacDONALD

A heavy producer of extra large, thick, juicy stalks that are good all spring and most of the summer. Skin is bright red and tender; flesh is white and sweet. Makes delicious, cherry-red sauce and pies with less sugar. Recommended for freezing, too. Yields early and heavily; very popular with commercial growers. Prices: 2 for \$1.30; 6 for \$3.30; 10 for \$4.50; each 70c, all prepaid.

McDonald Red Rhubarb
Four Months After
Planting. Large Crop,
Tender Stalk

CANADA RED

The reddest of all red rhubarbs and a runner-up in taste appeal to Valentine. **Has large, tender, juicy stalks** that are rich red all the way to the heart and even to the mid-ribs in the leaves. Skin is so tender you need not peel it. **Canada Red**, a heavy producer, can be used throughout the season. Plant now and have rhubarb this year. Prices: 2 for \$1.60; 6 for \$4.20; 10 for \$6.00; each 85c, all prepaid.

PARADISE ASPARAGUS

You'll enjoy extra-green, tender and tasty **Paradise Asparagus**. It's full of vitamins and minerals you need. Eat all you can for 6 or 8 weeks, and can or freeze a winter's supply, too. Retains its fresh flavor in freezing.

Paradise is reported to yield twice the crop of ordinary asparagus, and produces a normal crop a year earlier.

JUNE-BEARING STRAWBERRIES

PREMIER Premier is the most dependable strawberry grown—for home use or market. Sometimes called the “frost proof” strawberry, the blooming period is such that you are sure of getting a crop. Always a good market for the fruit as the berries are early and of good quality, medium to large in size, moderately firm, very attractive and well shaped.

PRICES: 25 for \$1.10; 50 for \$1.80
100 for \$3.00

250 for \$6.50; 500 for \$10.00; 1000 for \$17.50, prepaid.

ROBINSON A very large, scarlet berry of fair quality. Good commercial berry but not as good as Premier or Majestic in the home garden. Midseason to late.

PRICES: 25 for \$1.10; 50 for \$1.80
100 for \$3.00

250 for \$6.50; 500 for \$10.00; 1000 for \$17.50, prepaid.

MAJESTIC Excellent home garden variety. Berries are extra large, sweet and deep red clear through. One of the best for canning and freezing.

PRICES: 25 for \$1.10; 50 for \$1.80
100 for \$3.00

250 for \$6.50; 500 for \$10.00; 1000 for \$17.50, prepaid.

DUNLAP Grown by the thousands, Dunlap is perhaps best known of all strawberries. Berries are medium in size and are very good for canning. Hardier than most.

PRICES: 25 for \$1.00; 50 for \$1.60
100 for \$2.50

250 for \$5.20; 500 for \$8.45; 1000 for \$13.50, prepaid.

EVERBEARING Strawberries

STREAMLINER Few strawberries have had such publicity as Streamliner has had in the last few years. Where it grows well it is very sweet, large, bright in color and attractive. Seems to prefer a lighter soil.

PRICES: 25 for \$2.25; 50 for \$3.75
100 for \$5.75

250 for \$11.00; 500 for \$17.50; 1000 for \$30.00, prepaid.

EVERMORE ★★ ★ Best adapted to a cold climate and heavier soils. Good quality berries that are red all the way through. Plants are hardy, vigorous and productive.

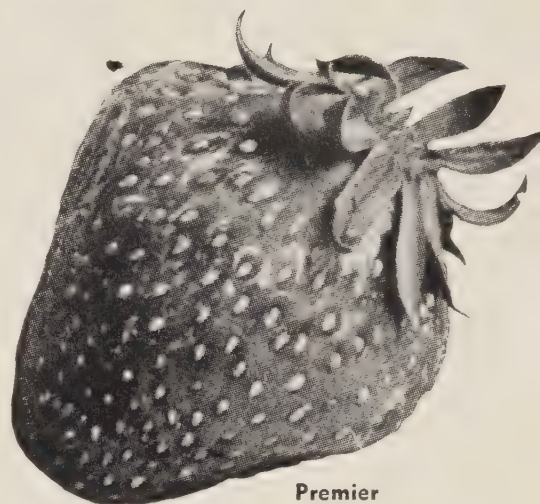

PRICES: 25 for \$1.75; 50 for \$3.00
100 for \$5.00

250 for \$9.85; 500 for \$15.65; 1000 for \$27.50, prepaid.

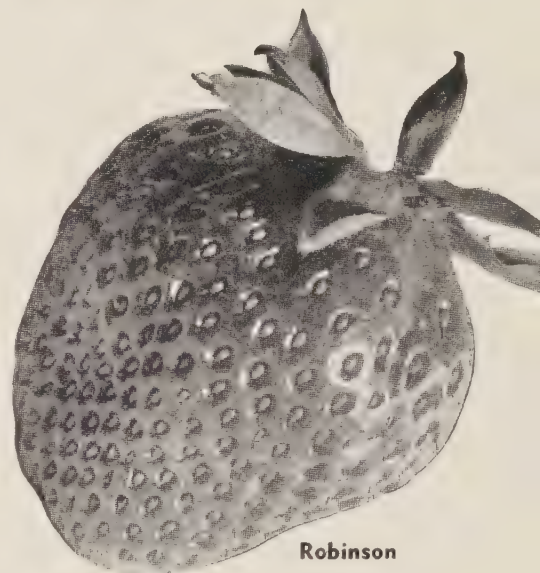

GEM Berries are good sized, bright red, firm, juicy and attractive. A vigorous grower and a good yielder. Very popular.

PRICES: 25 for \$1.65; 50 for \$2.85
100 for \$4.50

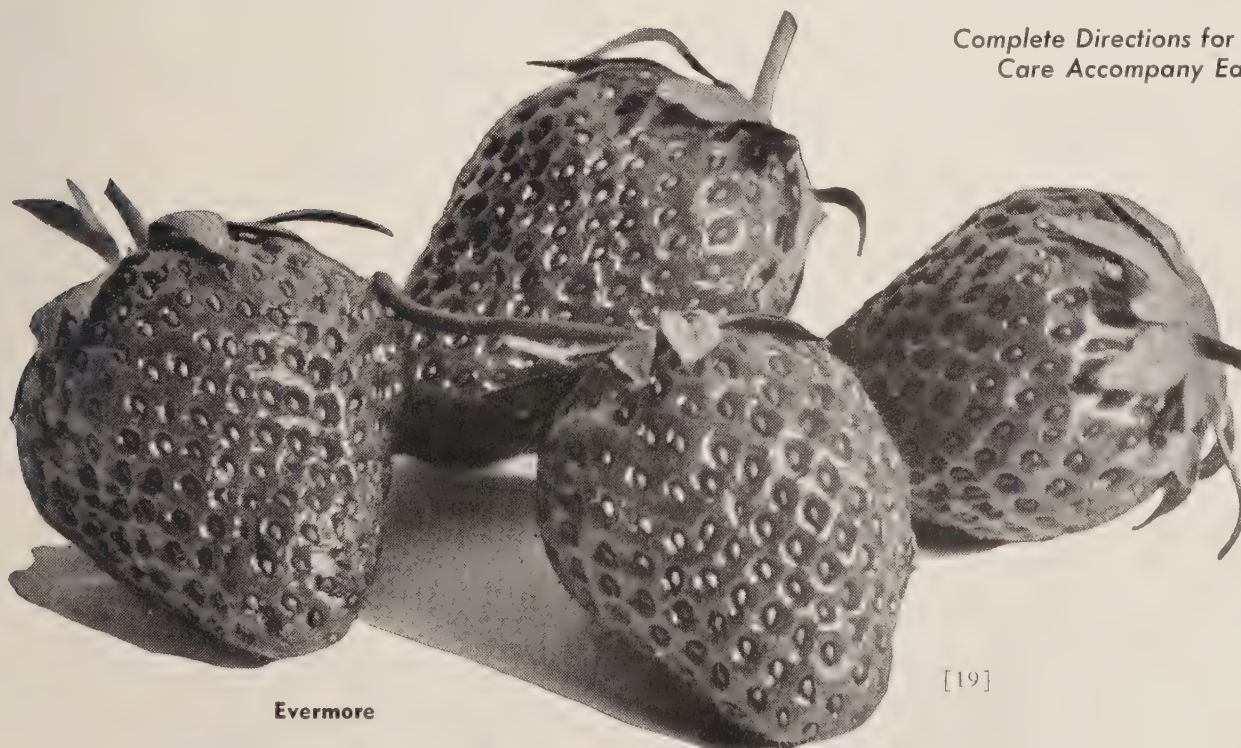

250 for \$8.75; 500 for \$13.85; 1000 for \$22.50, prepaid.

Care Accompany Each Order

YOUR RASPBERRY SUCCESS DEPENDS ON THE PLANTS WITH WHICH YOU START

ANDREWS Raspberry Plants Are Always a Safe Investment

YOU have good reasons for selecting ANDREWS clean, strong, vigorous, disease-free raspberry plants. Here's why:

1. You get plants grown by specialists from one of the largest raspberry growers in the world. ANDREWS has hundreds of acres of raspberries. Your plants get special care and attention by raspberry experts.

2. All plants are carefully inspected during the growing season—twice by our trained men and twice by the State Nursery Inspection Staff. In order to produce better plants and avoid diseases and pests, no fruiting canes are allowed in our fields. This prevents infection of young canes and gives you clean plants.

3. Andrews plants are grown on clean, fertile land, and in the right soil to produce strong, mature stock.

4. You get only machine-dug plants, with no injury or breakage of roots. Our fields are big and the rows are long. They are planted with a power machine, cultivated and dug with power machines. A special digging machine was designed to lift the plants without damage to the root system. Such care in handling cannot be duplicated in spade-dug plants.

12 Indian Summer

All 2-Year, Heavy,
Select Plants

36 Plants Only **\$5⁸⁵** Post-paid

Good, Healthy Stock is Essential

The best planting stock is the cheapest in the long run. Sucker plants from a "fence corner" patch can be very expensive in lost fruit. Often they carry some pest or disease which infects the new planting and robs you of a crop. Order only the very best grade of clean, healthy plants—from ANDREWS. You will thank us many times for this friendly advice.

Andrews Plants Known Nationally

ANDREWS raspberry plants are known as No. 1 plants from the Rockies to the Atlantic. Our climate and soil are ideal for developing vigor and good roots. Several inspections each season by the State Nursery Inspector pronounce them "mosaic-free" and in excellent condition.

Success with raspberries depends on clean, strong, vigorous, disease-free foundation stock. GET YOURS FROM ANDREWS.

Distance Apart to Plant Raspberries

Hill System. Plant in hills either 4½ by 6 feet, or 5 feet each way. Set two 1-year plants, or one 2-year plant per hill.

Hedge Row System. Set 1-year plants 2 feet apart, or 2-year plants 3 feet apart, in rows 6-8 feet apart. Keep fruiting rows only 1 foot wide. We are glad to figure the number of plants you need for any given area if supplied with the desired planting distance.

18 Plants Only **\$3²⁵** Pre-paid

Minnesota's Nursery Inspection force at work in one of our raspberry fields. The thrift, vigor and freedom from disease of Andrews plants have developed our market from the Rockies to the Atlantic.

Indian Summer

The Best Everbearing Red Raspberry

The huge berries of **Indian Summer** will make your garden the envy of the neighborhood. **Large and juicy** with a rich raspberry flavor, they are a special treat eaten fresh or frozen. The only raspberry that keeps its color when canned makes it popular with the housewife. For something unusual try them mixed with rhubarb. Once you have tasted Indian Summer you will always want it.

Indian Summer grows vigorously, yields heavily and requires little care. The fall crop will sometimes be too late for Minnesota but the summer crop is as **large or larger** than any other.

Although the berries are a little soft for long shipment, commercial growers find them excellent for local sales because of the extra heavy yield. Mr. A. L. Shuttleworth, prominent New York grower, says: "A yield of **5 tons** of fruit (660 24-pint crates) to an acre has been harvested from the summer crop here at my place." You can pick loads of delicious berries for your table with just 50 Indian Summer plants. For an ample supply for canning or freezing too, plant 100. You'll save buying expensive fruit, have better berries and plenty of them.

Dr. George Slate of New York says:

"When well grown the plants bear as heavy or heavier crops than most varieties. They are satisfactorily hardy in New York. The berries are large and of good quality. The fall crop is rather late in northern states. The plants do not become infected with mosaic even when grown near diseased plants".

For Hardiness and Early Season Plant **CHIEF** ★ ★ ★

Recommended for early market, for severe conditions and farm gardens. **Chief** bears excellent quality fruit through a long season. Well known in Canada, it has proven itself as one of the most vigorous and **hardy varieties** for northern regions. **Chief** has many of the good qualities of its parent Latham. Berries are firm, bright red, not quite as large as Latham but have a better flavor than some of the other reds. **Chief** is more resistant to drought, cold and disease.

Extra Early—Extra Quality

SUNRISE

RED RASPBERRY

Sunrise, while proving to be very hardy, has performed better than any other raspberry in the southern half of the United States where raspberries do not normally perform well.

Dr. J. Harold Clark, formerly of the New Jersey Experiment Station writes: "The special value of Sunrise is its earliness." Sunrise does ripen early—10 days ahead of Latham—and this commands a premium price on the market. The fruit is firm, fine textured, non-crumbley and possesses a fine flavor. Recommended for Southern gardens and where earliness is desired. Keep fruiting rows very narrow.

Sunrise

NEWBURGH *A Promising Variety*

Where Newburgh performs well, it has become very popular. It is excellent for either home or market. The fruit is very large, firm and doesn't crumble. Color is an attractive bright red. Plants are vigorous and very productive. In the area around Duluth, Minnesota, Newburgh has become a serious rival of Latham.

LATHAM ★★★ *The Leading Midseason Variety*

Latham is the leading commercial and home variety. It is vigorous, easy to grow, a heavy producer, and hardy enough to stand sub-zero winters.

The fruit is very large, dark red and firm; picks easily, keeps and ships well. Delicious eaten fresh, in sauce, jam, pies or shortcake.

For the price of a crate of berries you can have enough plants to give you all the raspberries you want for fresh fruit, canning and freezing. You can cut your grocery bills—and get a lot of satisfaction, too—by picking and enjoying your own home-grown fruit picked fresh for every meal. Your own berries have a better flavor, and there's no waste nor shrinkage.

Commercial growers report big yields and sure profits with Latham. Returns run as high as \$400.00 to \$800.00 per acre in a single year. For such results, plant genuine Latham (Redpath Strain) from Andrews healthy "certified mosaic-free" stock.

Prof. Alderman says of Latham:

"Its attractive coloring and firmness ordinarily commands a premium of 50c a case above the ordinary raspberry. Our test plots at Minnesota give conclusive proof that raspberry growing is very profitable. It is highly important to start with disease-free plants and follow up with suitable culture. Our tests plots yielded 254 to 294 24-pint crates per acre the third season after planting."

Cumberland

CUMBERLAND

Blackcap

The most widely planted black raspberry, **Cumberland** has stood the test of time because of its **fine flavor**, its extreme glossy blackness and the ease with which it is grown. It is a heavy cropper, is very dependable, and among the **hardest** black raspberries. For a good supply of delicious black raspberry jam set out some Cumberland this spring.

Prices: 2 year heavy, 6 for \$1.65; 12 for \$3.00; 25 for \$5.65; 50 for \$10.35; 100 for \$19.35, all prepaid. 1 year standard, 6 for 90c; 12 for \$1.45; 25 for \$2.65; 50 for \$4.85; 100 for \$9.15, all prepaid.

CUMBERLAND

Prepaid

SODUS Purplecap

If you are not yet growing **Sodus**, don't let another year slip by without planting some. A cross between a red and a black raspberry, **Sodus** is a purple raspberry with outstanding qualities.

Deliciously flavored with a zest unknown in other berries, many people believe the flavor of **Sodus** to be better than that of any of the red or black raspberries. To see for yourself just crush a cup of fully ripe **Sodus**, sugar lightly, and pour over a dish of vanilla ice cream. Now there is real flavor. When you have done this we believe you will agree that **Sodus** is **tops in taste appeal**. The husky plants are very heavy producers and are easy to grow. Don't miss another year—plant **Sodus** this spring.

PRICES: 1-year standard, 6 for \$1.35; 12 for \$2.35; 25 for \$4.15; 50 for \$7.55; 100 for \$13.75, all prepaid.

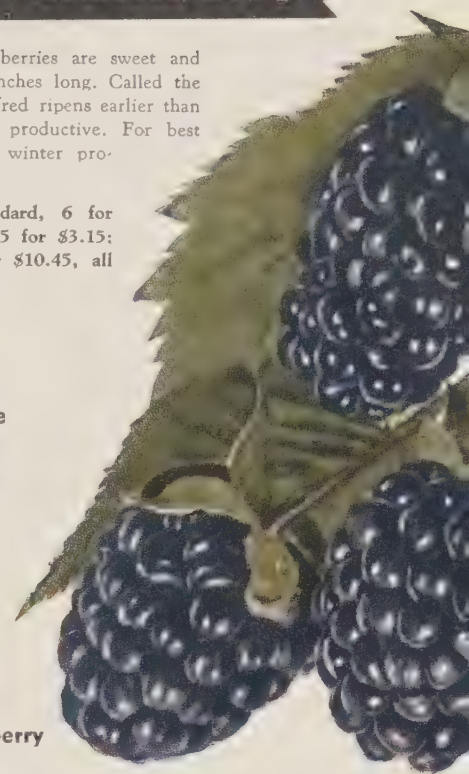

Sodus

ALFRED Blackberry

These large, jet-black berries are sweet and juicy and up to 1½ inches long. Called the coreless blackberry, **Alfred** ripens earlier than **Eldorado** and is more productive. For best results we recommend winter protection.

PRICES: 1 year standard, 6 for \$1.00; 12 for \$1.75; 25 for \$3.15; 50 for \$5.75; 100 for \$10.45, all prepaid.

Alfred
Blackberry

BOYSENBERRY

THORNLESS

A very large and productive berry—up to 2 inches long—that is said to be a cross between the loganberry, dewberry and blackberry. Eat them fresh for weeks, use them for pies, sauces, jams, jellies and fruit juices. Almost seedless. Should do well protected during the winter in northern regions. **Prices:** 2-yr., heavy, 6 for \$2.75; 12 for \$5.00; 25 for \$9.00; 50 for \$16.00; 100 for \$30.00, all prepaid.

1-yr., standard, 6 for \$1.45; 12 for \$2.60; 25 for \$4.45; 50 for \$8.10; 100 for \$14.25, all prepaid.

Dick Wilcox

DICK WILCOX. This magnificent new rose, named for Dick Wilcox, the well known rosarian and President of the Minnesota Rose Society, is one of the three newest Sub-Zero rose introductions. The plant is vigorous, disease resistant and **one of the hardiest**. Produces upwards of a hundred large, **completely double blooms of a luxurious deep red**, year after year. Plant Pat. applied for. \$2.00 each; 3 for \$5.75, prepaid.

WHY YOU SHOULD PLANT SUB-ZEROS

Sub-Zero Roses bring to the Rose gardener a new race of Hybrid Tea Roses, many of which are equal to the very best in form and color, yet having been bred back to very hardy strains, they possess a great deal **more hardiness**. Greater hardiness means more vigorous, long lived plants. For anywhere in the north, **Sub-Zero Roses will be easier to grow** and a greater source of satisfaction.

In Minnesota we recommend minimum winter cover, consisting of hilling up to the plants with dirt to a depth of about 8 or 9 inches. It is also wise to plant with bud or union 3 to 4 inches deep. However, they will easily stand temperatures of 15° below with no covering.

V for Victory

Queen o' the Lakes

QUEEN O' THE LAKES.

One of the three newest Sub-Zero Roses. This gorgeous red Rose was named in honor of the Minneapolis Aquatennial Queen

and is the official Rose for that outstanding event. No diving beauty could show more grace, brilliance and elegance of form; or color more beautiful than the charming crimson queen of flowers. Plant Pat. Applied For. 2-yr., No. 1 plants, \$2.00 each; 3 for \$5.75, prepaid.

ERO

Hybrid Tea Roses

BRED FOR THE NORTH

LILY PONS. One of the best liked among the Sub-Zeros, lovely Lily Pons has been a striking feature for some time in the gardens of the cold Upper Mid-West. The large, graceful flowers are white with a lemon-yellow shading in the center. A free flowering plant, it will produce upwards of a hundred perfectly formed flowers in a season. Plant Pat. No. 420. 2-yr.,

No. 1 plants, \$1.50 each; 3 for \$4.25. Select specimen plants, \$1.75 each; 3 for \$5.00, prepaid.

Lily Pons

PINK PRINCESS. The red buds open to deep pink flowers that are very large. This hardy Sub-Zero is famous as the first Hybrid Tea free from the premature losing of foliage. Plant Pat. No. 459. 2-yr., No. 1 plants, \$1.50 each; 3 for \$4.25. Select Specimen plants, \$1.75 each; 3 for \$5.00, prepaid.

Pink Princess

V FOR VICTORY. The large, very double clear yellow blooms combined with its lovely fragrance, makes this Rose a favorite of all who have it. Constantly in bloom, it is a yellow that will not fade even in the hottest sun. Plant Pat. No. 543. 2-yr., No. 1 plants, \$1.50 each; 3 for \$4.25. Select Specimen plants, \$1.75 each; 3 for \$5.00, postpaid.

CURLY PINK. One of the very best of all pink roses. Once established, each stem produces several large, two-toned pink blossoms in various stages of development, forming a gorgeous bouquet on a single stem. 2-yr., No. 1 plants, \$1.50 each; 3 for \$4.25. Select Specimen plants, \$1.75 each; 3 for \$5.00, prepaid.

CEDRIC ADAMS. Named for the eminent radio commentator, a lover of people and roses, this magnificent, sturdy plant carries multitudes of large, completely double, scarlet to carmine roses, beautifully shaped and long lasting. Truly an Aristocrat of Rosedom. Plant Pat. applied for. 2-yr., No. 1 plants, \$2.00 each; 3 for \$5.75, prepaid.

KING BOREAS. A lemon-yellow beauty that is completely double. Blooms in clusters, freely and abundantly. Named to honor the reigning King of the St. Paul Winter Carnival. (Prop. rights reserved.) 2-yr., No. 1 plants, \$1.50 each; 3 for \$4.25. Select Specimen plants, \$1.75 each; 3 for \$5.00, prepaid.

Curly Pink

Diamond Jubilee

Radiant, Long Lasting *Diamond Jubilee*

The gorgeous long lasting blooms with a soft "old rose" fragrance will make Diamond Jubilee one of your favorite roses for cutting. The color is an alluring buff-orange, deeper and richer in cool weather, and made to sparkle by a splash of orange-yellow at the base of the petals. The blooms are large—often 5 to 6 inches across—fully double and high centered. They last a long time either on the bush or as cut flowers. The bushy 30-inch plants have attractive dark green foliage and are unusually hardy for Hybrid Tea roses. A winner in the 1948 All-America Rose Selections, we know that in your garden Diamond Jubilee will also be a winner with you. Plant Pat. No. 824. \$2.00 each; 3 for \$5.00, prepaid.

New Yorker

New Yorker

An Outstanding New Red Rose

Being heralded by many as one of the very best new red roses, New Yorker will, we believe, get your vote because of its brilliant, unfading velvety scarlet blooms and its unusual but pleasant fruity fragrance. The blooms are large and high centered. The buds are perfectly shaped and slow to open. The vigorous plants are disease resistant and good growers. Plant Pat. No. 823. \$2.00 each; 3 for \$5.00, prepaid.

The Ever Popular *Charlotte Armstrong*

One of the best known All-America Award Roses, Charlotte Armstrong never fails to please. The gorgeous, long, streamlined buds are carmine-red, opening to a rich cerise. The blooms are usually produced singly and always on long stems, excellent for cutting. A free bloomer, established plants will produce hundreds of long-stemmed beauties throughout the season. Plant Pat. No. 455. \$1.50 each; 3 for \$3.75, prepaid.

American Flagship

The official rose of the American Airlines Flagship Fleet, this new rose has received a great deal of praise. Very dark, velvety crimson, double flowers are borne abundantly on husky straight stems. Retains color well even in strong sun. A vigorous grower and a free bloomer with attractive foliage. Disease resistant. Plant Pat. No. 676. \$1.50 each; 3 for \$3.75, prepaid.

Charlotte
Armstrong

Graceful, Gorgeous

Taffeta

Dozens of color combinations greet you as graceful, gorgeous **Taffeta** stages her summer show. Difficult to describe because colors are so changeable. At times an apricot or salmon and again a rose-pink. However, it is predominately carmine-rose in the bud stage changing to begonia-rose when in full flower. Loved because of its heavy production of perfectly formed, fragrant buds on very long stems. The bud opens to a semi-double flower with about 20 well textured petals and a pronounced fragrance. The glossy dark green leaves are enriched by the mohogany-red new growth. Has done well all over the country. Plant Pat. No. 716. \$1.50 each; 3 for \$3.75, prepaid.

Peace

The Greatest Rose of All Time

You'll marvel at the dawnlike range of colors through which this rose passes. The buds are golden yellow etched with pink. As they open they turn from canary-yellow to pale gold, then to iridescent cream. Petals are edged with apple-blossom-pink that deepens as the flowers slowly open to **glorious 5-inch blooms**. The petals roll gracefully out to form a very double flower attractively cupped and with a high-centered golden heart. Has from 40 to 45 large petals. The fragrance is delicate. The plant is vigorous and disease-resistant. Flowers are borne on heavy stems above the mass of glossy, hollylike foliage, and are produced in glorious succession until frost. Honors: **ALL-AMERICA** for 1946, and many others. Plant Pat. No. 591. \$2.00 each; 3 for \$5.00, prepaid.

Nocturne

Nocturne

An **ALL-AMERICA** rose for 1948, **Nocturne** has exquisitely long red buds, excitingly shaded with deeper tones. The color is **bright cardinal-red** with intriguing darker shadings of chrysanthemum-crimson, although somewhat lighter in hot weather. Flowers are pleasantly fragrant, have plenty of large, richly textured petals and last a long time. Stems are long, foliage large and luxuriant. You'll find this a big, sturdy, beautiful, bushy rose well adapted to all climates. Plant Pat. No. 713. \$1.50 each; 3 for \$3.75, prepaid.

Lovely Floribundas

PINOCCHIO This bold little Floribunda will worm its way into your heart with its **hundreds** of jaunty, long lasting, **Miniature Tea Roses**, 1½ inches across. All summer long, great clusters of delicate salmon buds, flushed with gold at the base, gradually soften to clear pink as the little "sweetheart" flowers open and take on deeper pink edges. In the garden Pinocchio is ideal for edgings and mass plantings. Incomparable for miniature flower arrangements and boutonnieres. Plant Pat. No. 484. \$1.25 each; 3 for \$3.15; 12 for \$12.50; 25 for \$23.45, prepaid.

RED PINOCCHIO Pinocchio in vivid red! Three-inch, delightfully fragrant roses are borne in large, long lasting clusters. The buds are a rich carmine taking on a velvety hue as the flowers open. The same attractive, cup-shaped bloom as Pinocchio, but in a rich scarlet. The bushy, upright plant is very vigorous. Plant Pat. No. 812. \$1.50 each; 3 for \$3.75; 12 for \$15.00; 25 for \$28.15, prepaid.

ELSE POULSEN This old favorite Floribunda still is in the front ranks. The vigorous plant and the dark, bronzy, glossy foliage make it an asset in any garden. The lovely semi-double, fragrant blossoms are of a **bright rose-pink** and are borne in clusters on long stems. The plant blooms profusely. 2-yr. plants, \$1.25 each; 3 for \$3.15; 12 for \$12.50, prepaid.

FLORADORA Exquisitely formed buds of **cinnabar-red** are carried in sprays of from six to twelve, each slowly opening to a **fully double, 2-inch flower** resembling a perfect little camellia. They are perfect for small bouquets, corsages or planting in borders, beds or as specimens. Will last for days as a cut flower. Plant is tall and slender. \$1.25 each. 3 for \$3.15; 12 for \$12.50, prepaid.

BETTY PRIOR This floribunda is very useful for hedges and in border plantings. It is very free flowering and the **carmine buds** open to shell-pink blooms to give an almost continual display throughout the summer. Plant Pat. No. 340. \$1.25 each; 3 for \$3.15; 12 for \$12.50; 25 for \$23.45, prepaid.

GOLDILOCKS This bold little 2½ ft. floribunda will be a source of continual amazement to you as it spills its **hundreds of perfectly formed, double, golden yellow flowers** into your garden. The blooms are cupped in the early stage and open slowly until they are 3½ inches across. Continuously in bloom and of an enchanting new color for floribundas, you will not want to miss having Goldilocks. The foliage is a dark glossy green which is made livelier in contrast with the golden yellow blooms. Plant Pat. No. 672. \$1.50 each; 3 for \$3.75; 12 for \$15.00; 25 for \$28.15, prepaid.

WORLD'S FAIR Clusters of velvety, 4-inch, rich scarlet flowers which almost hide the luxuriant foliage, will make this popular, rich red beauty a garden prize for years to come. It makes a continual display of large, semi-double flowers from spring until fall. Plants are vigorous, bushy and about 30 inches tall. Colorful World's Fair will make your garden and grounds the envy of your friends and a source of pride to you and your family. Plant Pat. No. 362. \$1.25 each; 3 for \$3.15; 12 for \$12.50; 25 for \$23.45, prepaid.

HOW TO USE FLORIBUNDAS

Floribundas are striking when planted in solid beds, either formal or informal. They add charm to the perennial border and are distinctive when used as edgings for walks or drives. Can also be planted at the base of climbers.

Goldilocks

HYBRID TEA ROSES

RED

AMI QUINARD. A rich velvety mid-night-red that does not fade. Exotically fragrant. \$1.00 each; 3 for \$2.80; 12 for \$10.00, prepaid.

CHRISTOPHER STONE. Long scarlet buds overlaid with crimson. Its delicate old rose fragrance makes this one of the best liked reds. \$1.00 each; 3 for \$2.80; 12 for \$10.00, prepaid.

ETOILE DE HOLLANDE. Brilliant red, very double blooms borne on sturdy upright stems. A favorite of rose lovers. \$1.00 each; 3 for \$2.80; 12 for \$10.00, prepaid.

POINSETTIA. Long pointed buds of brilliant unfading poinsettia-red. Slightly fragrant. Glossy foliage, and a good grower. \$1.00 each; 3 for \$2.80; 12 for \$10.00, prepaid.

PINK

PICTURE. Very double, high centered blooms of a velvety, clear rose-pink. Truly pretty as a picture. \$1.00 each; 3 for \$2.80; 12 for \$10.00, prepaid.

YELLOW

McGREY'S YELLOW. Bright butter-cup-yellow blooms, slightly fragrant. One of the very best yellows. \$1.00 each; 3 for \$2.80; 12 for \$10.00, prepaid.

GOLDEN DAWN. The lemon-yellow buds develop into well formed, sweetly scented blooms of sunflower-yellow. Vigorous and free-flowering. \$1.00 each; 3 for \$2.80; 12 for \$10.00, prepaid.

WHITE

K. A. VIKTORIA. Soft pearly white with a slight lemon tint in the center. Indescribably fragrant, beautifully formed flowers on long, graceful stems. \$1.00 each; 3 for \$2.80; 12 for \$10.00, prepaid.

TWO TONED

CONDESA DE SASTAGO. Oriental red and yellow two-tone. Very large double cupped flowers, strongly scented. Dark glossy foliage. \$1.00 each; 3 for \$2.80; 12 for \$10.00, prepaid.

CLIMBERS *for Pillars of Color*

WHITE DAWN. See front cover for description and prices.

CL. AMERICAN BEAUTY. An old favorite climber that is covered from top to bottom with large, fragrant, deep rose-pink blossoms. The buds are cupped and borne on long stems. 2-yr. plants, \$1.00 each; 2 for \$1.90, prepaid.

PAUL'S SCARLET. The most popular red climber. Produces brilliant masses of vivid, scarlet-red blooms that do not burn or fade. Flowers are borne in clusters on long stems. 2-yr. plants, \$1.00 each; 2 for \$1.90, prepaid.

CL. BREAK O' DAY. A Sub-Zero Climber with a beautiful orange-apricot shading that lends a very unusual touch to any garden. Plant Pat. No. 696. \$2.00 each, prepaid.

HARDY RUGOSA ROSES *for Severe Locations*

For extreme locations where other roses won't do well, plant these Hardy Rugosas. Very good for hedges.

F. J. GROOTENDORST. Small, carnationlike, cherry-red blooms are borne in profuse clusters. Especially good for hedges. \$1.15 each; 3 for \$3.00, prepaid.

HANSA. Supremely hardy, with good foliage and large crimson flowers. Makes a good show. \$1.15 each; 3 for \$3.00, prepaid.

BELLE POITEVINE. Clusters of bright pink flowers. Very free blooming. \$1.15 each; 3 for \$3.00, prepaid.

For Better Roses- Use TRI-GEN

Protect your roses with Tri-Ogen Rose Spray. Tri-Ogen is a scientifically blended all-purpose spray that will protect your choicest blooms from all diseases and insects which roses are subject to. New Tri-Ogen contains **Fermate**, which will rid your garden completely of black spot. Rose growing is simple when you grow the new, more disease-resistant varieties and supplement them with TRI-GEN. Can also be used for Asters, Mums and many others including vegetable garden produce. Complete directions accompany each order.

Northern Grown GLADIOLUS

Complete instructions for planting and care included with every order.

RED

BLACK OPAL. A fine tall, deep maroon to black Glad that opens 9 to 10 round florets on long spikes. Contrasts with white beautifully. Midseason. 3 for 35c; 6 for 65c; 12 for \$1.10; 25 for \$2.00, prepaid.

RED CHARM. King of the reds! An early Glad fine for commercial use and exhibition. Opens a generous number of bright red florets on tall, willowy spikes. 3 for 40c; 6 for 70c; 12 for \$1.25; 25 for \$2.25, prepaid.

STOPLIGHT. Red. Tall, handsome spikes each with 6 to 8 exquisitely ruffled florets of brilliant red with a rich, velvety luster. 3 for 35c; 6 for 65c; 12 for \$1.10; 25 for \$2.00, prepaid.

PINK

ETHEL CAVE COLE. Immense flowers of pure, lovely, light pink, set off by a deeper rosy throat. Makes a fine cut flower and exhibition spike. Strong, husky grower that opens 8 to 10 blooms on a long flower head. 3 for 35c; 6 for 65c; 12 for \$1.10; 25 for \$2.00, prepaid.

ROSA VAN LIMA. A beautiful apple-blossom-pink shading into a large white throat. Large, round florets on long, straight spikes. A uniform and dependable early bloomer. 3 for 35c; 6 for 65c; 12 for \$1.10; 25 for \$2.00, prepaid.

CHAMOUNY. A lovely new pink with silver picotee edging. Beautiful in cut flower arrangements. 3 for 40c; 6 for 70c; 12 for \$1.25; 25 for \$2.25, prepaid.

PICARDY. One of the finest Glads ever produced. Beautiful salmon-pink blooms on massive spikes. A dependable variety. 3 for 35c; 6 for 65c; 12 for \$1.10; 25 for \$2.00, prepaid.

CREAM

LEADING LADY. An outstanding new variety and winner of many blue ribbons. Creamy white with deeper cream throat. Tall, willowy stems open 7 or 8 large, ivory-white florets at one time. 3 for 40c; 6 for 70c; 12 for \$1.25; 25 for \$2.25, prepaid.

WHITE GOLD. Has a giant spike with 6 to 8 enormous, slightly ruffled flowers of triangular shape, open at once. Creamy white with a golden throat. An early bloomer and a good grower. 3 for 35c; 6 for 65c; 12 for \$1.10; 25 for \$2.00, prepaid.

YELLOW

AUTUMN GOLD. Petals on this richly colored, golden yellow Glad are bordered with orange. Very popular in bouquets. Medium length stems but can be cut close to the ground without injuring foliage. 3 for 35c; 6 for 65c; 12 for \$1.10; 25 for \$2.00, prepaid.

ORANGE GOLD. A marvelous gleaming, golden orange. Opens 4 to 6 large florets on very tall spikes. Excellent grower. 3 for 50c; 6 for 85c; 12 for \$1.50; 25 for \$2.75, prepaid.

SPOTLIGHT. Yellow. A clean, brilliant yellow with a scarlet trickle deep in the throat. Florets are large, round and full. One of our best yellows. New, very popular. 3 for 40c; 6 for 70c; 12 for \$1.25; 25 for \$2.25, prepaid.

LAVENDER

ELIZABETH THE QUEEN. New and a best seller. Flowers are large, exquisite mauve and beautifully ruffled with darker lines in the throat. Opens 7 to 8 blooms at a time. Makes a fine garden variety. 3 for 40c; 6 for 70c; 12 for \$1.25; 25 for \$2.25, prepaid.

LAVENDER PRINCE. A new Glad with a soft, deep lavender and an even deeper throat. Beautifully ruffled wide open florets on strong, tall, outstanding spikes. 3 for 50c; 6 for 85c; 12 for \$1.50; 25 for \$2.75, prepaid.

ORANGE

GRATITUDE. A beautifully ruffled medium orange with a yellow throat blotch. Opens 5 to 6 florets on a long flower head. Combines long spikes with interesting color. 3 for 40c; 6 for 70c; 12 for \$1.25; 25 for \$2.25, prepaid.

WHITE

SNOW PRINCESS. A creamy white with 5 or 6 giant 5-inch blooms open at once on tall, strong spikes. Reliable and prolific. Our leading commercial white. 3 for 35c; 6 for 65c; 12 for \$1.10; 25 for \$2.00, prepaid.

MARGARET BEATON. Snow-white, with a small orange-scarlet throat blotch. For years one of our best. 3 for 40c; 6 for 70c; 12 for \$1.25; 25 for \$2.25, prepaid.

SMOKY

CHIEF MULTNOMAH. A bluish chocolate smoky enhanced by a bright red blotch in the throat. A striking flower; beautiful in bouquets. 3 for 40c; 6 for 70c; 12 for \$1.25; 25 for \$2.25, prepaid.

HIGH FINANCE. A giant tan smoky that stands out in bouquets. Popular because it blooms late when the early Glads are all gone. 3 for 40c; 6 for 70c; 12 for \$1.25; 25 for \$2.25, prepaid.

PURPLE

KING LEAR. A huge, ruffled, purple Glad with silver edging. Fine for bold, beautiful effects with Snow Princess. 3 for 35c; 6 for 65c; 12 for \$1.10; 25 for \$2.00, prepaid.

PURPLE SUPREME. A magnificent purple with silver edging. An excellent basket flower with its long flower heads. Becoming very popular. 3 for 35c; 6 for 65c; 12 for \$1.10; 25 for \$2.00, prepaid.

SALMON

JEANIE. A good tall grower, fine for cut flowers. A pure salmon-pink with a golden throat. Midseason. 3 for 35c; 6 for 65c; 12 for \$1.10; 25 for \$2.00, prepaid.

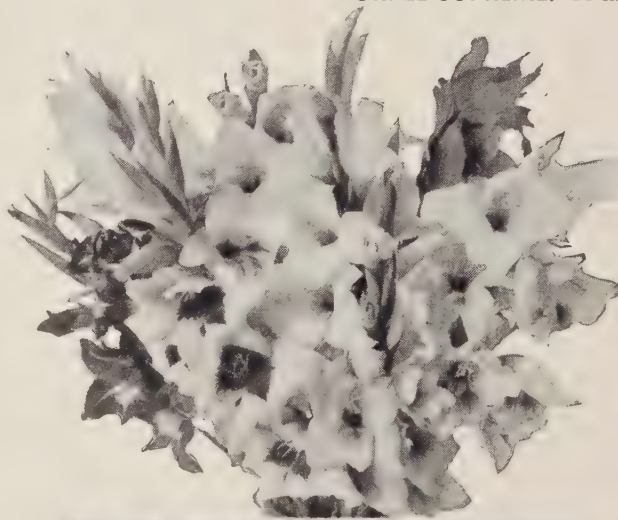

BRONZE

BUCKEYE BRONZE. This striking blend of autumn colors is much in demand in florist shops and roadside stands. A good grower and consistently a show winner. 3 for 40c; 6 for 70c; 12 for \$1.25; 25 for \$2.25, prepaid.

VIOLET or BLUE

ABU HASSAN. In a mixed bouquet the contrast of this deep, dark blue adds richness to all the others. Florists welcome it. 3 for 50c; 6 for 85c; 12 for \$1.50; 25 for \$2.75, prepaid.

BLUE BEAUTY. An old favorite light blue. Large florets; takes many prizes. 3 for 40c; 6 for 70c; 12 for \$1.25; 25 for \$2.25, prepaid.

Flowering Shrubs to

Good Gardening Means Good Living. Trees and shrubs well chosen and placed make a house a home. A carefully selected list of flowers will add to the color and charm of your home and will provide flowers for border or bouquet from spring until frost. Add to your home by planting this spring.

HYDRANGEA, P. G.

Massive snowy white, cone-shaped flowers in August and September turn to a coppery pink as they mature. Dried blossom heads make fine winter bouquets. 18-24 in., \$1.10 each; 3 for \$3.10, prepaid.

HYDRANGEA, A. G.

Large, pure white blooms like snowballs from June until August. Grows 3 to 4 feet tall. Hardy, thrives everywhere. Does especially well in shade. Should be cut back to within 8 inches of the ground each spring for best flowering results. 18-24 in., \$1.10 each; 3 for \$3.10, prepaid.

FORSYTHIA (Golden Bell)

Earliest shrub to bloom, Forsythia has great masses of bright yellow flowers before the leaves appear. Foliage is a rich dark green. Grows to about 5 feet. Should be protected in Minnesota. 3-4 ft., \$1.00 each; 3 for \$2.75. 2-3 ft., 75c each; 3 for \$2.00, prepaid.

SILVERBERRY

A new shrub with strikingly handsome silver foliage. Its late summer silver berries hang on into winter. This 4- to 5-ft. shrub contrasts well with the Red Flash (Cistena), and Golden Elder, or as a background for Red-Leaf Barberry. 2-3 ft., \$1.20 each; 3 for \$3.35, prepaid. 18-24 in., 90c each; 3 for \$2.45, prepaid.

New Weigela Vaniceki

This hardier New Weigela has the darkest red blooms of all Weigelas. It is one of the finest shrubs we have grown, making a shapely rounded bush 5 to 6 feet tall and almost as wide. The foliage is a crisp dark green. In May and June it is completely covered with beautiful ruby-red flowers; after which the shrub makes new growth and in a few weeks commences to bloom again and blooms right up until frost. 2-3 ft., \$2.25 each; 3 for \$6.35, prepaid. 18-24 in., \$1.75 each; 3 for \$4.85, prepaid.

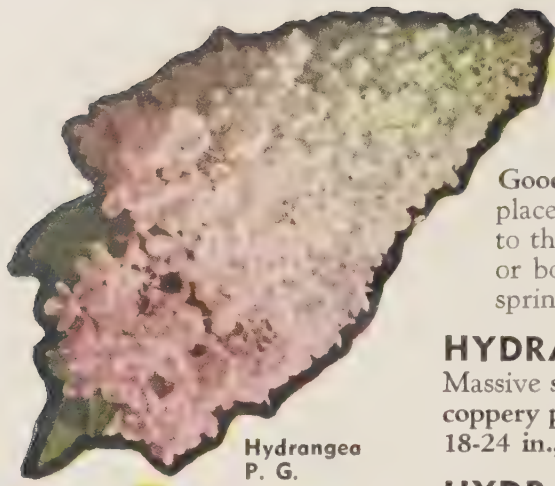

WEIGELA, Eva Rathke

Visitors will admire this shrub in spring, covered with lovely, bright red, trumpet-shaped flowers. Strong, vigorous; 4 to 5 feet high. Good in borders or foundation plantings. 2-3 ft., \$1.60 each; 3 for \$4.55, prepaid. 18-24 in., \$1.20 each; 3 for \$3.35, prepaid.

RED-LEAF

BARBERRY

Planted in the sun, this colorful, 2-foot plant has bright red foliage in spring and summer, deepening to a dark crimson in the fall. Its attractive red berries hang on all winter. Very attractive planted with Silverberry. 18-24 in., \$1.15 each; 3 for \$3.25, prepaid. 15-18 in., 95c each; 3 for \$2.65, prepaid.

Hydrangea
P. G.

Forsythia

Weigela Vaniceki

Brighten Your Home

MOCKORANGE, Virginal

One of the most popular shrubs for landscaping. The bushes are filled with large, lovely pure white semi-double flowers with orange blossom fragrance. Virginal is a neat, semi-dwarf shrub growing only 6 to 7 feet tall. Can be easily kept lower by trimming. Blooms profusely in May and June. Widely planted for years because it is trim and beautiful—easy to grow—hardy and vigorous. Very useful for screens, backgrounds and fillers as well as for specimen shrubs. 2-3 ft., \$1.45 each; 3 for \$4.15, prepaid. 18-24 in., \$1.15 each; 3 for \$3.25, prepaid.

MOCKORANGE, Snowflake

The new, hardy, fast growing Minnesota Snowflake Mockorange has pure white flowers that are completely double and exceptionally sweet scented. Makes a shapely graceful specimen shrub with a profusion of fragrant blooms in mid-summer. Will reach 8 to 10 ft. tall but can be held smaller by trimming and will still bloom readily. 2-3 ft., \$1.60 each; 3 for \$4.55, prepaid. 18-24 in., \$1.35 each; 3 for \$3.85, prepaid.

Mockorange, Virginal

Flowering Prairie Almond

New! Flowering Prairie Almond

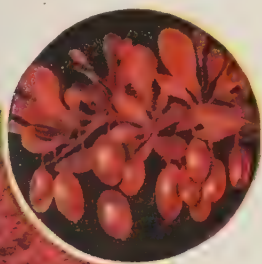

HARDY—COLORFUL—LONG LASTING BLOOMS

From the Dominion Experiment Station at Morden, Manitoba, Canada, comes another remarkable introduction. Renowned for their introduction of the strikingly beautiful Almey Flowering Crab (described on back cover), the Mantet Apple and the Morden Pink Lythrum to name a few, they have now produced a flowering shrub which is certain to attain great popularity.

Red Flash

The Prairie Almond is somewhat suggestive of its mother parent, the double flowered Rose Tree of China. However, Prairie Almond is smaller, has finer branches and foliage, and is even **hardier!** The lovely pink blossoms are borne in astounding profusion early in the spring and remain in a showy condition for nearly 2 weeks. The very attractive little bush is again a garden feature in August when it is heavily laden with round, reddish nuts. Be one of the first to get a start with the Flowering Prairie Almond and have spring color earlier and longer than ever before. 2-3 ft., \$1.90 each; 3 for \$5.45, prepaid. 18-24 in., \$1.45 each; 3 for \$4.15, prepaid.

Red-Leaf Barberry

RED FLASH (Prunus Cistena)

Purple-Leaved Cherry. The most brilliant of all the larger red-leaved shrubs. The delicate pink blooms in early spring are followed by rich red leaves that last throughout the season. It will achieve its best color when planted in full sunlight.

Red Flash cannot be surpassed for yard or foundation planting, where a distinctive spot of unusual coloring is desired. Especially attractive when grouped with such shrubs as Silverberry or Golden Leaf Elder. 2-3 ft., \$1.80 each; 3 for \$5.15, prepaid. 18-24 in., \$1.30 each; 3 for \$3.65, prepaid.

Niobe Weeping Willow

SHADE TREES

A good collection of shade and ornamental trees will make for a more gracious living. Cool, shady avenues and colorful as well as useful plantings around your home grounds will add immeasurably to the pleasure and comfort we all get from our own homes.

WILLOW, Niobe Weeping. A graceful weeping tree for lawn or beside a rock wall, for planting near pools, banks or streams. Has **golden yellow** bark, narrow green leaves silvery beneath, and long, drooping branches.

	Each	2
8-10 ft.	\$2.85	\$5.45
6- 8 ft.	2.25	4.25
5- 6 ft.	1.35	2.25

MOUNTAIN ASH. A beautiful **semi-dwarf** specimen tree with creamy white flowers followed by clusters of **orange-red** berries. Very hardy.

	Each	2
6-8 ft. ..	\$4.95	\$9.65
5-6 ft. ..	3.75	7.25

The Maples

The maples rightfully enjoy a tremendous popularity. Few shade trees can compete with their beauty and permanence. No yard is complete without at least one or two maples.

MAPLE, Hard. One of the finest and most colorful of all the maples—a beautiful shade or boulevard tree. Has brilliant **yellow-orange** or **scarlet** foliage in fall. A tall, stately, sturdy tree, compact and graceful. Grows well North or South.

	Each	2
6-8 ft.	\$4.80	\$9.35
5-6 ft.	3.35	6.45

MAPLE, Norway. Very popular because of its pleasing and familiar dome-shaped head densely covered with beautiful dark green foliage. Lovely autumn foliage of **rich yellow** and **orange** hangs on the tree two weeks longer than on any other maple. Well adapted to city conditions. Fine for street or lawn planting.

	Each	2
6-8 ft. (branched) ..	\$3.95	\$7.65
7-8 ft. (not branched) ..	1.75	3.25

MAPLE, Soft or Silver. Not as pretty in the fall as the other maples, but has attractive summer foliage and is one of the **fastest growing** shade trees.

	Each	2
8-10 ft.	\$3.15	\$6.00
6- 8 ft.	2.35	4.45
5- 6 ft.	1.65	3.00

MAPLE, Schwedler. A beautiful tree ideal for color accents in spring, summer and fall. Its purplish crimson leaves in spring contrast with the usual vivid greens. Gradually the colors soften to **bronze-green** in summer, then to a deeper waxy green. Has the same round, symmetrical shape as its parent, the Norway Maple. A long-lived hardy tree that will enrich your home landscape.

	Each	2
6-8 ft. (branched) ..	\$5.25	\$10.00
5-6 ft. (not branched) ..	2.75	5.25

Schwedler Maple

Complete Instructions for Planting and Care Included with Every Order

Green Ash

ASH, Green. One of the best shade trees. Very clean, symmetrical, drought resistant and long-lived. Green Ash grows under the most severe conditions. Excellent in the windbreak and woodlot, too.

	Each	2
6-8 ft.	\$2.25	\$4.25
5-6 ft.	1.50	2.75

ELM, American. America's noblest and most popular shade tree, large and spreading, combining strength and grace. One of the best lawn or park trees—majestic, hardy, permanent. Ideal for avenues, roadsides, city parks, parkways and picnic grounds. You can grow grass right up to the trunk, too.

	Each	2
10-12 ft.	\$3.75	\$7.25
8-10 ft.	2.95	5.65
6- 8 ft.	1.95	3.65
5- 6 ft.	1.35	2.45

ELM, Chinese. A hardy Siberian strain that **grows fast** even in poor soils. Withstands excessive heat and drought, but not as neat nor as permanent as many others.

	Each	2
6-8 ft.	\$2.35	\$4.45
5-6 ft.	1.75	3.25

LINDEN, American. (Basswood). A beautiful specimen tree with round, compact top; large, heart-shaped leaves that give dense shade; fragrant yellow flowers followed by winged fruit.

	Each	2
6-8 ft.	\$4.50	\$8.75
5-6 ft.	2.75	5.25

for STATELY CHARM

The Birches

These delightful trees are not valued as much for shade as they are for their gracefulness. Outstanding for accent points, their comparatively small size makes them usable in almost any yard.

BIRCH, White. A beautiful tree for your lawn. Has slender, graceful branches, deep green foliage, and **paper-white bark**. In the fall the leaves turn an attractive yellow. Summer or winter it contrasts effectively in clumps near or among evergreens.

	Each	2
6-8 ft.	\$2.25	\$4.25
5-6 ft.	2.00	3.75

BIRCH, Weeping Cut-Leaf. You'll find grace, charm and beauty combined in this popular tree. Has **silvery white bark**, graceful drooping branches, and small, finely cut leaves. Emphasizes the compact lines of evergreens. Grows best in moist locations. Very attractive when planted in groups of two or three.

	Each	2
7-8 ft.	\$5.50	\$10.75
6-7 ft.	4.50	8.75

The Poplars

The poplars have been steadily growing in popularity. Excellent for **tall screens** and accent points. Can be used on corners of tall houses, and to line driveways for farm homes.

POPLAR, Lombardy. Tall, stately landscape tree for accent points, quick screens, back-grounds and driveways. Very picturesque and very useful. Has glossy leaves that shimmer in the sunlight. Branches grow close to trunk and upright to form a **tall, slim column**. Fast growing and hardy.

	Each	2
8-10 ft.	\$1.65	\$3.00
6- 8 ft.	1.25	2.25
5- 6 ft.90	1.65

POPLAR, Bolleana. (Silver-Leaved). Beautiful landscape tree that resembles the Lombardy Poplar in shape, but is **hardier and longer lived**. Has deeply lobed leaves with a white facing that gives a delightful silver flash in the breeze.

	Each	2
8-10 ft.	\$3.75	\$7.00
6- 8 ft.	2.55	4.85
5- 6 ft.	1.95	3.65

Lombardy Poplar

HARDY HEDGES for Beauty and Privacy

Nobody would fancy living in a goldfish bowl. That's why we plant hedges—low hedges in the front yard and tall hedges in the back yard or outdoor living room. We want privacy in our outdoor rooms just as we do in our indoor rooms. Hedges are the walls we use in our outdoor rooms. For complete privacy in the back yard use the taller, fast

growing kinds such as Honeysuckle or Chinese Hedge-wood. For partial privacy in the front yard to keep out intruders use the lower growing sorts: Dwarf Ninebark, Barberry or Blue Leaf Hedge. If in doubt as to the best to use for your location and soil feel free to write us.

LOW OR DWARF HEDGES

DWARF NINEBARK. A comparatively new hedge plant that is rapidly gaining in favor. A new, dwarf strain of Ninebark that gets to be **only 3 to 4 feet tall**. Large clusters of delicate **white flowers** are followed by reddish fruits which turn to a dark purple during the summer. Grows perfectly upright and is very dense. Trimmed, it makes the ideal formal hedge, while untrimmed it makes a neat and distinctive informal hedge. **Very hardy** and will grow anywhere. Plant 12 inches apart.

	25	50	100
12-18 in. . .	\$6.45	\$12.45	\$23.65

BARBERRY THUNBERGI. A colorful shrub of low, spreading growth that makes a compact hedge. Foliage is **bright green** turning to a **fiery red** in the fall. Attractive red berries add enchantment through fall and winter. For best results plant 12 inches apart.

	25	50	100
18-24 in. . .	\$6.35	\$11.95	\$22.85
12-18 in. . .	4.45	8.45	15.65

BLUE LEAF HEDGE. A new, very attractive hedge plant with silvery blue-green leaves. Can be trimmed severely or left to make a graceful informal hedge. Very hardy. Grows 3-4 feet tall. Plant 12 inches apart.

	25	50	100
12-18 in. . .	\$6.35	\$12.35	\$23.35

Dwarf Ninebark

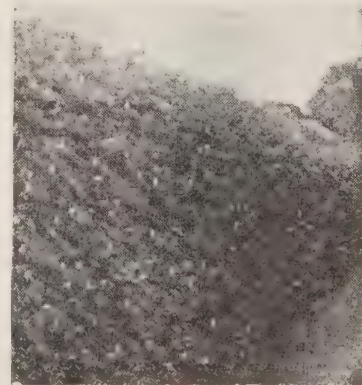

TALL HEDGES or SCREENS

CHINESE HEDGEWOOD. A very hardy, fast growing and low priced shrub that makes fine, close-clipped, formal hedges or compact screens for privacy in the outdoor living room. Stands sub-zero cold or sweltering heat. Delicate rich green leaves appear early and are shed late. Plant 12 inches apart.

	25	50	100
2- 3 ft.	\$3.65	\$6.85	\$12.85
18-24 in.	3.35	6.35	11.35

RED HONEYSUCKLE. A shrub with masses of red flowers in May followed by bright red berries, liked by the birds. Ideal where a tall, flowering, quick growing screen is desired. **Very hardy.** Grows from 6 to 10 feet; in sun or part shade; in any soil. Makes a good specimen shrub. For hedging, space 1½ to 2 feet apart.

	25	50	100
18-24 in.	\$6.95	\$13.15	\$24.85
12-18 in.	5.65	10.45	19.35

Honeysuckle, Red

CROSS SECTION OF A MODERN MONEY- MAKING WIND- BREAK

Section 1
Snowcatch

Section 2
4 Rows of Deciduous Trees

Section 3
4 Rows of Evergreens

It might be said that the Standard Windbreak consists of three sections.

Section 1 is the snow catch, a double row of trees such as Chinese Elm, Laurel Leaf Willow or Golden Willow, designed to act as a large, permanent snow fence and to drop the snow before it can reach the buildings and clog up your drives.

Section 2 is planted 60 feet inside the snowcatch leaving a good sized snow trap, which area can be utilized during the summer for the garden or home orchard. Section 2 consists of 4 rows of hardwoods—2 rows of fast growing trees such as Norway Poplar and Soft Maple alternated with 2 rows of slower growing trees such as American Elm and Green Ash.

Section 3, or the backbone of the windbreak, is planted inside

section 2 and is made up of 4 rows of evergreens. These are slower growing, of course, and do not make their contribution as quickly as do the trees in sections 1 and 2.

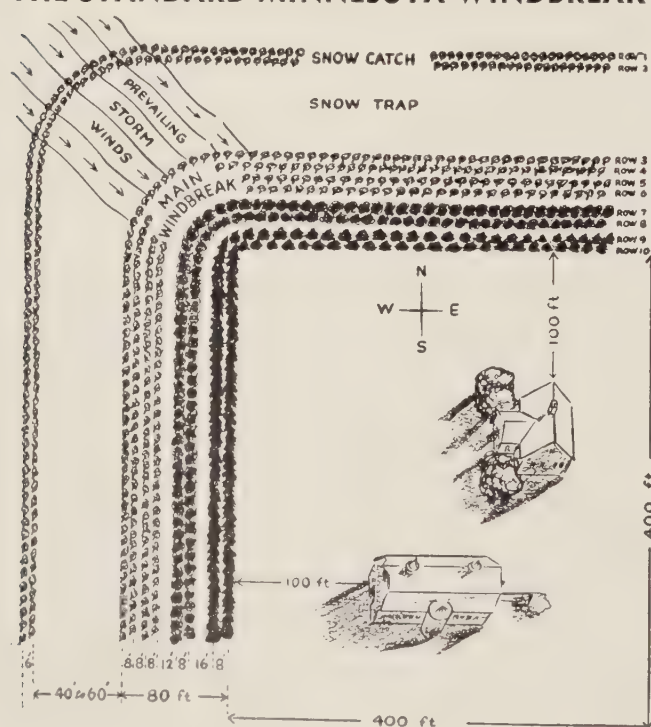

If it is not practical to plant the entire windbreak at once, we would recommend first planting section 2, then section 1 (the Snowcatch) and then section 3 in order to get the most good in the least amount of time.

In section 1 plant trees 4 feet apart with 6 feet between rows. In section 2 plant trees 6 feet apart with 8 feet between rows. In section 3 plant trees 8 to 10 feet apart, with 10 to 16 feet between rows. We will be glad to help with the planning of your windbreak if you send us the measurements of the available space.

ANDREWS WINDBREAKS

AND SHELTERBELTS

THE STANDARD MINNESOTA WINDBREAK

Varieties Suitable for Each Row

- Rows 1 and 2 Chinese Elm, Laurel Leaf Willow, or Golden Willow
 Rows 3 and 5 Norway Poplar or Soft Maple
 Rows 4 and 6 American Elm or Ash
 Rows 7, 8, 9, and 10 Evergreens—page 37

GREEN ASH. Most dependable for windbreak or woodlot—will grow on almost any soil. Fast growing, long lived, excellent for lumber or fence posts. A hardy Dakota strain that is dense, durable and drought-resistant.

All Prepaid	25	50	100	200
3-4 ft.	\$2.75	\$5.35	\$9.95	\$18.95
2-3 ft.	1.95	3.75	6.85	12.95
18-24 in.	1.45	2.75	4.75	8.95

AMERICAN ELM. Selected, hardy, upland strain recommended by the Conservation Department for shelterbelts and woodlots. Grows on any soil. Beautiful; long-lived; drought-resistant.

All Prepaid	25	50	100	200
3-4 ft.	\$2.25	\$4.35	\$7.95	\$14.95
2-3 ft.	1.55	2.95	5.15	9.75
18-24 in.	1.25	2.25	3.85	6.95

CHINESE ELM. Hardy Siberian strain that grows rapidly even on poor soil. Thick, compact branches from the ground up stop the sweep of wind and drifting snows as well as dust storms. Makes a fine windbreak in 3 or 4 years.

All Prepaid	25	50	100	200
18-24 in.	\$1.65	\$3.15	\$5.65	\$10.85

3-4 ft.	\$3.45	\$6.65	\$12.45	\$23.85
2-3 ft.	2.25	4.25	7.85	14.95

RUSSIAN OLIVE. The beautiful silver-leaved tree—a fine ornamental as well as an excellent shelterbelt tree. Branches, from the ground up, make it useful for the “snow catch” rows of the shelterbelt. Has fragrant yellow flowers followed by berries attractive to birds.

All Prepaid	25	50	100	200
12-18 in.	\$1.85	\$3.55	\$6.35	\$12.15
6-12 in.	1.45	2.75	4.85	8.95

Save Feed With Windbreaks Says U. S. D. A.

Less feed and labor are required to produce beef in feedlots protected by shelterbelts or windbreaks, say the United States Department of Agriculture and the Soil Conservation Service. After a series of experiments the SCS came to the conclusion that your windbreak area will produce more beef than the same area planted to a feed crop.

The same is true with your dairy cows, chickens and pigs. Each will produce more when protected from winter's sweeping winds. Your house will require less fuel and you will have less drifting of snow in the farm yard, too.

If your farmstead is not protected, you have probably paid out more in fuel and feed costs than the cost of a windbreak—and you still don't have it! Moreover, you miss a constant source of firewood, lumber and posts. Let us help plan a shelterbelt to fit your needs.

Norway Poplar—three years after planting

Protected Steers Make \$240 Extra!

In a comparative test some years ago, two lots of 50 steers each were fed the same kind and amount of feed, but one lot was **protected** with a windbreak, the other **unprotected**. The protected lot gained 2,250 pounds **more**. Sold at \$10.80 per cwt., this lot brought \$243.00 **more**.

ARE COMMON-SENSE

MONEY-MAKERS

NORWAY POPLAR. Outstanding for windbreaks because of its hardiness and rapid growth. Grows on any soil; begins giving protection the second year after planting. Makes posts and lumber, too.

All Prepaid	25	50	100	200
4-5 ft.	\$5.15	\$9.45	\$17.95	\$34.95
3-4 ft.	4.25	8.25	15.65	29.85
2-3 ft.	3.00	5.85	10.95	19.85

RUSSIAN GOLDEN WILLOW. This hardy, fast growing willow has an attractive **bright yellow bark**. In mass plantings they are very colorful especially in winter. Provides a crop of firewood in a hurry, too.

All Prepaid	25	50	100	200
3- 4 ft.	\$3.15	\$5.95	\$10.95	\$20.95
2- 3 ft.	2.25	4.35	7.85	14.95
18-24 in.	1.65	3.25	5.65	10.65

LAUREL LEAF WILLOW. The best willow for windbreak work. Branches provide dense, glossy, **dark green foliage** from the ground up—ideal for the two outside rows of the windbreak as a snow-catch. Leaves stay on late in the fall for added protection. Planted 3 feet apart and 60 to 100 feet from a roadway, Laurel Leaf makes a beautiful addition to the landscape over the years. It also provides a natural and inexpensive snow fence.

All Prepaid	25	50	100	200

COLORFUL SHRUBS

Dwarf Ninebark

NINEBARK, Dwarf

A new strain of Ninebark only 3-4 feet high that produces lovely white flowers in June. Reddish berries turn dark purple during summer. Fall coloring of foliage is brilliant red and yellow. Outstanding for specimen shrubs or hedges. 3-4 ft., \$1.35 each; 3 for \$3.85, prepaid. 2-3 ft., \$1.00 each; 3 for \$2.75, prepaid.

Golden Elder

ARROWWOOD (Viburnum Dentatum)

Deeply cut leaves and beautiful 3-inch white flowers make Arrowwood a perfect shrub for the shrub border or for medium screens. Hardy—grows 8 to 10 feet. 2-3 ft., 90c each; 3 for \$2.45, prepaid. 18-24 in., 75c each; 3 for \$2.00, prepaid.

BARBERRY, Thunbergi

Well liked for foundation plantings and for hedges. Bright green foliage turns reddish bronze in autumn. Very hardy—3 feet tall. 18-24 in., 75c each; 3 for \$2.00, prepaid. 15-18 in., 65c each; 3 for \$1.75, prepaid.

DOGWOOD, Pagoda

Branches form in irregular whorls, forming flat, horizontally spreading tiers. Very unusual. Hardy. Grows 8-12 feet. 2-3 ft., \$1.20 each; 3 for \$3.35. 18-24 in., 85c each; 3 for \$2.35, prepaid.

DOGWOOD, Variegated

A graceful, colorful 5-6 ft. shrub with dark red bark and variegated green and white foliage in summer. 2-3 ft., \$2.00 each; 3 for \$5.65, prepaid. 18-24 in., \$1.65 each; 3 for \$4.65, prepaid.

ELDER, Golden

Bright golden yellow leaves make this an outstanding shrub. Planted with Red Flash shrub or Strathmore flowering crab it makes a striking effect. 5-6 feet tall. 2-3 ft., 95c each; 3 for \$2.65, prepaid. 18-24 in., 75c each; 3 for \$2.00, prepaid.

HONEYSUCKLE, Red Bush

This 8-10 ft. very hardy shrub has many uses. Flowers not as red as Zabelle, but its upright growth makes it a desirable background for smaller shrubs or perennials. 3-4 ft., 90c each; 3 for \$2.45, prepaid. 2-3 ft., 75c each; 3 for \$2.00, prepaid.

JUNEBERRY

White blossoms followed by red berries that turn blue when ripe. Fruit resembles blueberries but will grow anywhere. Very good for jam, jelly and pies. Plant at least two to insure fruit. 18-24 in., 90c each; 3 for \$2.45, prepaid. 12-18 in., 75c each; 3 for \$2.00, prepaid.

Late Blooming Tamarix

TAMARIX (Lace Tree)

A charming shrub with lacelike silvery blue foliage and large clusters of bright pink flowers, giving a pink and silver mist effect. Outstanding, very popular; grows 6 to 7 feet. 3-4 ft., \$1.35 each; 3 for \$3.85, prepaid. 2-3 ft., 90c each; 3 for \$2.45, prepaid.

ROSE TREE of CHINA

Branches are hidden under a fleecy cloud of bright pink double blossoms resembling small pink roses, even before leaves are out in the spring. A breath-taking sight in full bloom, especially when it reaches its full height of about 6 feet. Should be included in every yard. Very hardy and easy to grow. 2-3 ft., \$1.90 each; 3 for \$5.45, prepaid. 18-24 in., \$1.45 each; 3 for \$4.15, prepaid.

SNOWBERRY

Beautiful rose-pink blossoms are followed by pearly white berries that will attract birds and cling well into winter. Does well in shade and grows 3 to 4 feet tall. 2-3 ft., 75c each; 3 for \$2.00, prepaid. 18-24 in., 55c each; 3 for \$1.45, prepaid.

SPIREAS

SPIREA, Anthony Waterer. A popular dwarf shrub with rosy red blooms borne freely in July. Fine for low foundation plantings or in the foreground of the shrub border. 18-24 in., \$1.05 each; 3 for \$2.95, prepaid. 15-18 in., 95c each; 3 for \$2.65, prepaid.

SPIREA, Froebeli. See page 40 for description.

SPIREA, Snowgarland. Smaller and blooms earlier than Bridalwreath. Just covered with white flowers when in bloom. Orange-scarlet foliage in fall makes it most impressive. 2-3 ft., \$1.15 each; 3 for \$3.25, prepaid. 18-24 in., 85c each; 3 for \$2.35, prepaid.

SPIREA, Van Houttei (Bridalwreath.) This graceful old favorite, a solid mass of white in spring, needs no introduction. Grows anywhere and reaches the height of 5 to 6 feet. 2-3 ft., 65c each; 3 for \$1.75, prepaid. 18-24 in., 55c each; 3 for \$1.45, prepaid.

FRAGRANT COLORFUL LILACS

Spring and beautiful fragrant Lilacs! What memories they bring back with their sweet scent enveloping the whole house and yard. Your mother and mine loved them—on the bush or on the table—in luxurious profusion.

FRENCH HYBRIDS

Only in **French Lilacs** can you get such a wide variety of colors for those gorgeous mixed bouquets. They bloom earlier, have greater beauty, more fragrance and more attractive foliage than the old common lilac. They do not sucker.

PRICES: 18-24", \$1.65 each; 3 for \$4.65, prepaid.
12-18", 1.15 each; 3 for 3.25, prepaid.

ALPHONSE LAVALLEE. A gorgeous blue with double florets. Long, shapely, compact panicles.

CHAS. JOLY. Tops among the dark purple-reds. Handsome, large, double blooms. A strong grower.

CHAS. SARGENT. A double blue with large spikes.

GENERAL SHERIDAN. A very good single blue. Husky plants; blooms well.

HUGO KOSTER. One of the better singles. Large bright mauve flowers on large spikes.

PRES. CARNOT. A good double orchid. Very free blooming.

PRES. GREY. A double with giant panicles of a clear, soft, delicate blue.

VILLOSA LILAC

A late blooming lilac that makes a wonderful display after all the other lilacs are through. From a distance it looks much like Red Chinese but is lighter in color and has distinctive leaves. 2-3 ft., \$1.35 each; 3 for \$3.85. 18-24 in., \$1.00 each; 3 for \$2.75, prepaid.

RED CHINESE LILAC (*Rothomagensis*)

Sometimes called the Improved Persian, this lovely "lacy" Red Chinese variety is one of the most beautiful and showy lilacs in cultivation. Its strong, arching branches have distinctive narrow leaves and are profuse with large loose clusters of rich red flowers. Blooms just after the French Hybrids. Excellent for hedges and foundation plantings. Reaches 8 to 10 feet at maturity. Hardy in any climate and a colorful addition to your lilac collection. 2-3 ft., \$1.35 each; 3 for \$3.85. 18-24 in., \$1.00 each; 3 for \$2.75, prepaid.

Red Chinese Lilac

Honeysuckle, Zabeli

HONEYSUCKLE, Zabeli

Strongest red flowers of all the honeysuckles! Red flowers in May are followed by bright red berries set off well by the deep green leaves. A beautiful shrub destined to replace the pink honeysuckles because of its colorfulness. Excellent as single shrub, or for screens and hedges. 3-4 ft., \$1.00 each; 3 for \$2.75. 2-3 ft., 85c each; 3 for \$2.35, prepaid.

HIGH BUSH

CRANBERRY

Here's a handsome background shrub with attractive bright red berries that make a delicious, pleasantly tart jelly. Grows to 6 or 7 feet with slender, graceful drooping branches. Has attractive single white flowers in May or June. The large clusters of scarlet berries will stay on into the winter. Berries can be used alone or in combination with other fruits. Beautiful, bright green foliage turns to rich red in autumn. 2-3 ft., \$1.35 each; 3 for \$3.85. 18-24 in., \$1.00 each; 3 for \$2.75, prepaid.

Now you can have home-grown blueberries—big, luscious, marble-like berries so good **picked fresh** (and eaten with cream and sugar), delicious in pies or preserves, or **frozen fresh** for next winter!

The new perfected hybrids are big, shrublike plants which grow 4 feet or more high and just as broad. Planted in moist, acid soil, they will bear heavy clusters of giant fruit in 2 years. To make your soil acid, a 1-pound bag of aluminum sulphate is included with each order. Your Farm Bureau will test your soil for acidity.

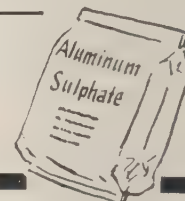

A mixture of sand and peat is most desirable. If your site is not too moist, you'll have better luck mulching with sawdust or peat than with cultivation. Peat will furnish needed nitrogen. A little extra care will pay you well. The plant itself is beautiful, with creamy white, fragrant blooms in spring, followed by attractive, delicious fruit. In fall the foliage turns a brilliant red. **Plants require a limited amount of winter protection** and some pruning. They have no harmful enemies; require no spraying.

Because the plants are not self-fertile, you will need two or more varieties:

STANLEY, RUBEL, and JERSEY

BLUEBERRY OFFER
Because the plants are not self-fertile, we give you this special combination offer of three varieties:
1 Stanley. 12-18 in., 3-yr. plant.
1 Rubel. 12-18 in., 3-yr. plant.
1 Jersey. 12-18 in., 3-yr. plant.
1 each of all three, **\$4.35** prepaid.
Shipped with 1 lb. Aluminum Sulphate and complete directions for planting.

FREE. With each order of three plants, you will receive 1 pound of aluminum sulphate to make your soil acid. Work this into the top 6 inches of soil.

Full Directions for Planting with Every Order

SPIREA, Froebeli

The Outstanding DWARF Spirea

This shrub is very popular where a low colorful plant is wanted such as under windows, or in front of tall evergreens by the doorway or corners of the house. **Bright, rosy red flowers** in flat clusters are produced in July and August. The foliage is very attractive, turning to a striking **purple-red** in the fall. Closely resembles Anthony Waterer Spirea, but is hardier, more colorful in autumn, and is very drought resistant. **Grows anywhere.** One of the finest and most popular border shrubs. 18-24 in., 1 each; 3 for \$2.35, prepaid.

Jackmani Clematis

CLEMATIS COLLECTION

- 1 Veillard, Lilac-rose.
- 1 Henryi, White.
- 1 Jackmani, Purple.

All 3 for \$3.55, Postpaid

Andrews VINES

FOR SUMMER CHARM

CLEMATIS

JACKMANI. The most popular of all the large-flowering clematis in America, with large, velvety, **violet-purple** flowers. Grows rapidly through the summer and early autumn. Its beauty and perfection can be enhanced by cutting plants back to 3 feet to encourage strong new wood. 2-yr. select vines: 3 for \$3.55; \$1.25 each, prepaid.

HENRYI. The large white flowers of Henryi often measure 8 inches. Although it is vigorous and climbs to 8 feet, Henryi is outstanding for its quality of bloom rather than its quantity. 2-yr. select vines: 3 for \$3.55; \$1.25 each, prepaid.

VEILLARD. A tall growing clematis (10 to 12 ft.) of sturdy growth, Veillard produces **hundreds** of medium sized lilac-rose flowers. Color more intense in cool weather. 2-yr. select vines: 3 for \$3.55; \$1.25 each, prepaid.

BITTERSWEET. Grow winter bouquets of Bittersweet on your own back fence or arbor. June blooms are followed later by attractive **orange-red** berries. Plant two or more for cross-pollination. Makes fine late fall and winter bouquets. This popular native vine has bright, glossy foliage, too. Makes a fine decoration for the summerhouse if given a little help in climbing. Grows in any soil; in sun or partial shade. Very hardy. 2-yr. select vines: 3 for \$2.00; 75c each, prepaid.

ENGELMANN IVY. You'll be surprised how rapidly this grows and how well it clings. Covers stone, brick or stucco walls without support. A handsome 5-leaved ivy with extra thick, green foliage which turns a **brilliant, rich red** in autumn. Thrives well in sunshine or shade. 2-yr. select vines: 3 for \$1.75; 65c each, prepaid.

GOLDFLAME HONEYSUCKLE

A delightful new vine with immense clusters of large, fragrant **flame-coral trumpets** lined with **creamy gold**. Blooms abundantly from May until frost, reaching its full glory in early summer. The dark, glossy, blue-green leaves make a perfect background for the brilliant flowers.

Goldflame can be clipped to form a neat hedge, pruned to make a striking specimen shrub, or allowed to grow naturally to climb a trellis, or spread as a ground cover. **Very hardy and easy to grow.** 2-yr. select vines: 3 for \$3.10; \$1.10 each, prepaid.

Goldflame Honeysuckle

Phlox Subulata (Creeping Phlox)

For Blazing Fall Color-Plant Andrews' MUMS

Mums display their full autumn splendor when most other flowers are through blooming. They provide a riot of color and beauty for your garden from August and September until heavy frost.

Mums Pictured on Opposite Page

Autumn Greetings. Bright semi-double 1½-inch flowers of copper and gold. Very colorful. Good for mass planting. Blooms about Sept. 12. Height 22 inches. 3 for \$1.10; each 40c, prepaid.

Autumn Song. These large, full, double Mums are a brilliant wine-rose shading to carmine. Blooms profusely on 22-inch plants about Sept. 12. 3 for \$1.20; each 45c, prepaid.

Avalanche. Big, fluffy, 5-inch creamy white flowers that bloom about Sept. 4. 3 for \$1.10; each 40c, prepaid.

Chippewa. These large, rich aster-purple flowers often reach 3 inches across. Plant grows to about 2 feet, blooms about Sept. 4. Makes an attractive background for dwarf varieties. 3 for \$1.20; each 45c, prepaid.

Dee Dee Ahrens. Earliest of all pure white cut flower varieties. Closely resembles florists' pompon in form. This is a dwarf Mum bearing double flowers on stiff stems about Aug. 28. 3 for \$1.20; each 45c, prepaid.

Other Mums

(Not pictured.)

Charles Nye. A sensational double, rich buttercup-yellow, borne in clusters on tall, strong stems. Grows to 28 inches; flowers are 3 inches across. An excellent pot plant, blooming about Sept. 24. 3 for \$1.40; each 55c, prepaid.

DEFIANCE. A bright golden yellow flower 2½ inches across. Flowers fully double with petals twilled. Outstandingly fine. Plant strong and upright growing, giving long stems to flowers for cutting. Blooms about Sept. 18. Height 24 inches. 3 for \$1.50; 60c each, prepaid.

Glowing Coals. A bright deep cherry-red with an orange reverse. Plant much branched. A good early red with 2½-inch flowers. Blooms about Sept. 16. Height 24 inches. 3 for \$1.20; 45c each, prepaid.

Hearthfire. A bright red flower with a yellow center. Ideal for cutting. Blooms about Sept. 18. Height 26 inches. 3 for \$1.20; 45c each, prepaid.

Heatherbloom. A delightful heather-pink, with a rose-red center. Blooms about Sept. 6. 3 for \$1.20; 45c each, prepaid.

Miss Lace. A large 3-inch double pink flower. Grows to 26 inches and blooms about Sept. 22. 3 for \$1.25; 50c each, prepaid.

Sienna. Dark reddish orange toned brown, with flowers 2 inches across. Flower fully double and petals very stiff. Blooms about Sept. 16. Height 20 inches. 3 for \$1.20; 45c each, prepaid.

Snowfall. Double white with cream center and pointed petals. The plant makes a mass display when in bloom and lasts a long time. Flowers 2 inches. Blooms about Sept. 24. Height 20 inches. 3 for \$1.25; 50c each, prepaid.

Zantha. This healthy, free-flowering plant is a fine, early, brilliant canary-yellow pompon. Starts to flower about Aug. 20 and continues into late Sept. 3 for \$1.20; 45c each, prepaid.

Wallie Hybrids

Autumn Beauty. This Mum has captured all the beauty of the fall colors. Large 3-inch flowers of deep bronze with highlights of yellow and gold, make an avalanche of color as the flowers are freely produced on upright plants. A magnificent spectacle in any garden. Height 22 inches. Blooms about Sept. 8. 3 for \$2.00; 75c each, prepaid.

Cecil Beed. Truly the finest of all true pink Mums. Color a deep pink with tips of petals trimmed gold. Flowers 2½ inches across produced in abundance on long stems from large plants that have an upright habit. A breath-taking beauty when in bloom. Height 26 inches. Blooms about Sept. 10. 3 for \$2.00; 75c each, prepaid.

Snowbird. A pure glistening white pompon with flowers 1 inch across that are semi-ball shaped. Flowers produced on medium long stems that make it good for cutting. Flowers hold their color well as substance of petals is heavy. Height 18 inches. Blooms about Sept. 10. 3 for \$2.00; 75c each, prepaid.

Eternal Snow. Early semi-double white with yellow center. Flowers 2½ inches across. Blooms about Sept. 8. Height 22 inches. 3 for \$1.20; 45c each, prepaid.

Inspiration. A large rich orange-red overlaid with apricot. The large flowers and long stems make it a perfect cut flower. Blooms about Sept. 28. Height 28 inches. 3 for \$1.50; each 60c, prepaid.

Magnificent. Large 4-inch flowers of rosy red, overcast with a bright copper. Plant habit strong. Ideal for cutting. Blooms about Sept. 26. 3 for \$1.50; each 60c, prepaid.

Margaret Ann. A large 2½-inch rosy purple flower. Very free flowering and good for cutting. Blooms about Sept. 15. Height 26 in. 3 for \$1.20; 45c each, prepaid.

Maroon 'N' Gold. Immense 4-inch flowers of bright mahogany-shaded maroon that turns to a bronzy gold as they open. Makes a wonderful contrast on each plant. A very free-flowering dwarf that blooms about Aug. 26. 3 for \$1.20; each 45c, prepaid.

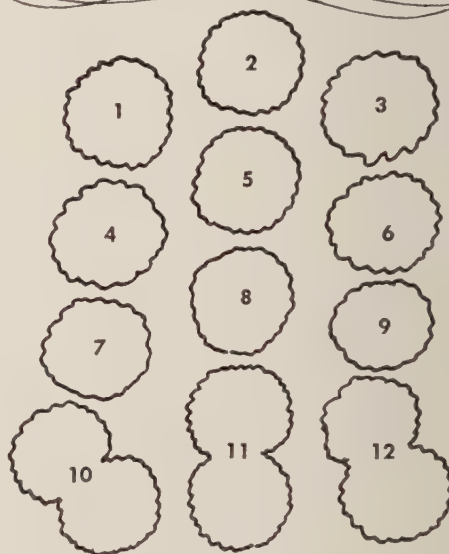

Olive Longland. These 3-inch double flowers are apricot-tinted salmon-pink that shades to coral. Petal substance makes it ideal for cutting. 24 inches. Blooms about Sept. 26. 3 for \$1.25; each 50c, prepaid.

Yellow Avalanche. A large, clear, soft yellow identical to the white Avalanche in shape. Large 4-inch flowers. The best yellow in existence today. Blooms about Sept. 6. Height 22 inches. 3 for \$1.40; each 55c, prepaid.

Mum Garden Collection

BLUE. (Pictured at left.) Large bell-shaped flowers on 2-3 ft. stems.

3 for \$1.25; 50c each, prepaid.

Mt. Shasta (Below)

ALMEY

Flowering Crabs Mean Spring!

In spite of the calendar the real coming of spring is heralded by the glorious Flowering Crabs. There are few things as breath-taking as Flowering Crabs with their clouds of red and pink blooms as they signal the passing of winter and the coming of another gorgeous spring.

HOPA Blood-red buds are followed by a mass of fragrant deep rose colored blossoms. The foliage is first a reddish purple, then a bright rich green. Truly a striking tree. 5-6 ft. \$2.00 each, 2 for \$3.75; 4-5 ft. \$1.65 each, 2 for \$3.15.

BECHTEL'S, KLEHM'S IMPROVED

The branches are hidden by a spectacular display of delicate double pink flowers that look like miniature roses. Ideal for the smaller yard. An improved hardy form of the old favorite Bechtel's Flowering Crab. 4-5 ft. \$2.25 each, 2 for \$4.25; 3-4 ft. \$1.95 each, 2 for \$3.65.

RED SILVER The maroon-red leaves, silver underneath, add a splash of color to any planting. Red flowers, leaves and fruit. 5-6 ft. \$2.25 each, 2 for \$4.25; 4-5 ft. \$1.80 each, 2 for \$3.35.

ALMEY The flowering crab with sensational dollar-size blooms of glistening, fiery crimson. Almey takes its rightful place as the most colorful and beautiful flowering crab in America. Developed by the Dominion Experimental Station at Morden, Canada, they have this to say of Almey: "has very large blossoms of glistening red. White markings at the base of each petal give the effect of a five sided star. When in bloom this strong growing healthy tree from

a distance looks like a mass of flame." Another distinct advantage is that Almey blooms young. Two year old trees in the nursery were in bloom last spring. Don't miss getting your Almey started this year. 5-6 ft. \$2.65 each, 2 for \$5.00; 4-5 ft. \$2.25, 2 for \$4.25.

STRATHMORE A narrow upright Crab. Flowers resemble Hopa but are somewhat darker and less fading. Foliage remains reddish all summer and turns strikingly red and scarlet in Autumn. 4-5 ft. \$2.25 each, 2 for \$4.25; 3-4 ft. \$1.75 each, 2 for \$3.25.

FLOWERING CRAB COLLECTION

1 Almey 4' to 5'
